WILLIAM P. POWERS,  
Sheriff, Rensselaer County, N. Y.

The following communication was received and ordered printed in the minutes

To the Honorable the Board of Supervisors of Rensselaer County.

As required by the provisions of the Election Law the Board of Elections of Rensselaer County respectfully reports to your body as follows:

Copies of the enrollment of voters in the County of Rensselaer were made and delivered to the chairmen of the respective political parties entitled thereto.

A special election was held in April for the purpose of voting upon the question whether we should have a Constitutional Convention in 1915. The necessary ballots and supplies were furnished each election district. The election was held, which resulted in the question being answered in the affirmative.

This Board was served with an injunction obtained in the action of William Jay Schieffelin prohibiting us from destroying any papers connected with the April election until the matter was finally disposed of by the courts. The case went to the Court of Appeals, where it was decided the election was a valid one.

Under a change in the election law each candidate for office, with the exception of delegates to the Constitutional Convention, must be voted separately. The State Superintendents of Election advised this Board that voting machines could be so arranged as to enable separate voting as required by law, and this Board employed the services of experts from the Automatic Registering Machine Corporation to arrange the voting machines used in this county, to wit.: City of Troy, City of Rensselaer, the towns of Hoosick, Berlin, Petersburg and Stephentown, and the machines were arranged according to law.

The election law of 1914 provided that the election districts, both where voting machines are used and where paper ballots are used, should be re-districted. A redistricting was made in the county, which resulted in an addition of nine districts in Troy, an additional district each in Berlin and Schodack, making ninety-nine election districts in all in the County of Rensselaer. This required providing additional enrollment boxes and booths for registration days in the new districts.

The Board made the same arrangement with relation to the care of the enrollment boxes during registration days and election day as heretofore.

The election law, as amended by a provision requiring the Board of Elections to print and mail to every voter who had not registered personally a sample ballot such as would be used on election day, with the name John Doe printed thereon, was complied with.

Notice of the official primaries was published once as required by section 75 of the election law in the Troy Times, Troy Record, Troy Standard Press, Troy Observer, Troy Northern Budget, Troy Freie Presse, Troy Labor Advocate, Rensselaer County Standard, Hoosick Falls Democrat, Schaghticoke Sun, Rensselaer Eagle and Vita Nova.

The election districts of the county were divided into primary districts as required by the election law and assigned to the respective parties.

On September 11, 1914, in according with the provisions of Section 58 of the election law, the board drew positions on the primary ballot in all districts where contests were had.

The necessary ballots for the primary election were provided for, the

election held and the returns of the primary were canvassed by this board and a copy of the canvass sent to the Secretary of State.

On October 13th the board advertised for bids for the printing and binding of the lists of registered voters. The contract was awarded to C. L. Mac Arthur & Son, the lowest bidder.

The Troy Times, Troy Freie Presse, Troy Standard Press and Troy Observer were designated to publish the list of nominations in accordance with the election law.

As has been the custom, the voting machines were placed upon exhibition during the days of registration at the various polling places that the voters might become acquainted with them.

The work of this board was hampered by court orders, one being served relative to the arrangement of the ballots on machines after the ballots and some of the necessary printed supplies were furnished, thus compelling the board to reprint it at additional expense.

All of which is respectfully submitted.

Dated Troy, N. Y., December 15, 1914.

President.

ANDREW E. DELANY,

Secretary.

The following communication was received and ordered printed in the minutes and referred to the Committee on Erroneous and Omitted Taxes:

To the Board of Supervisors of the County of Rensselaer, and to the County Treasurer of Rensselaer County:

The petition of John H. Satterlee, of the Town of Berlin, in said County, respectfully shows:

That he is the owner and holder of certain tax certificates issued by the County Treasurer of Rensselaer County for the non-payment of State and County taxes, which certificates are described as follows:

Certificate No. 294, tax sale of 1907, covers 146 acres in the Town of Berlin assessed to Joseph Hoffay; the amount paid for certificate \$3.64.

Certificate No. 295, tax sale of 1907, covers 146 acres in the Town of Berlin assessed to Joseph Hoffay; the amount paid for certificate \$3.64.

Certificate No. 374, tax sale of 1907, covers 72 acres in the Town of Berlin, assessed to Peter Miller. Amount paid for certificate \$7.27.

These three farms were either owned by the State of New York or were covered by mortgages held by the Commissioners for loaning certain moneys of the United States and in either case the tax sales were void and illegal under Section 157 of the Tax Law.

The petitioner therefore requests that in accordance with the provisions of 156 of the Tax Law, the amount paid by him for said tax certificates be refunded to him with interest from the respective dates of payment.

Said sum of \$3.64 was paid by petitioner on Sept. 30, 1907, for certificate No. 294. Said sum of \$3.64 was paid by petitioner on Sept. 30, 1907, for certificate No. 295, and said sum of \$7.27 was paid by petitioner on August 5, 1908, for said certificate No. 371.

to the matters therein stated to be alleged upon information and belief and as to those matters he believes it to be true.

#### RESOLUTIONS ADOPTED BY TYPOGRAPHICAL UNION,

December 16, 1914.

Whereas, The County Tuberculosis Hospital, known as Lake View Sanatorium, is on almshouse grounds, which location restricts its patronage; and

Whereas, Rensselaer county has for the last eight years reported to the State Department of Health at Albany, an average of 230 deaths each year, and it is estimated that there are over 1,100 people who are afflicted with tuberculosis in this county; and

Whereas, Lake View Sanatorium being too small to fulfill its mission and purpose, provision having been made for only fifty-one beds, with no quarters for incipient cases and no special provision for tuberculosis children; therefore be it

Resolved, That we urgently request the Board of Supervisors of Rensselaer County to build a new and larger hospital on some location where its patronage will not be restricted because of its establishment on "County Poor Farm" property, and also proper provision made for the care of incipient cases and for children, who need institutional care and treatment; and be it further

Resolved, That the Secretary be instructed to send a copy of this resolution to the Clerk of the Board of Supervisors and to the press.

JOHN L. HARTNETT, President.

December 18, 1914.

Whereas, Lake View Sanatorium, the county tuberculosis hospital is too small and does not have the facilities for the care and treatment of incipient cases; and

Whereas, This hospital being situated on the almshouse grounds creates in the minds of many people the impression that it is a hospital for the care and treatment of the tubercular vagrant and pauper only; therefore be it

Resolved, That we request the Board of Supervisors to establish a new hospital on some other location, and large enough to give treatment to people afflicted with tuberculosis in all its stages; and be it further

Resolved, That the Secretary of this body be instructed to send a copy of this resolution to the Clerk of the Board of Supervisors, William C. Waite, Grafton, N. Y.

Resolved, That we urgently request the Board of Supervisors to establish a new hospital with facilities adequate for the treatment of those infected with tuberculosis in all its stages; and be it further

Resolved, That a copy of this resolution be sent to the Clerk of the Board of Supervisors, William C. Waite, Grafton, and to the Troy Times and Record.

TINSMITHS' UNION, FEDERATION HALL.

December 23, 1914.

Whereas, tuberculosis is a disease which destroys many lives and causes much suffering among working people; and

Whereas, Lake View Sanatorium is small and inadequate to the demands made upon it, and has no provision for early cases and for children; and

Whereas, its location on the grounds of the almshouse tends to attach a stigma of pauperism to those who go there; therefore

Resolved, By this union, that we urgently request the Board of Supervisors of Rensselaer County that they take action to establish a new tuberculosis sanatorium in a different location, with the most modern means of treating all stages of the disease.

Resolved, That we appoint a representative of this organization to cooperate with others in urging this matter before the Board, and that we use our influence with individuals to secure the establishment of a new sanatorium.

Whereas, tuberculosis or consumption is a most serious foe to the working people of Rensselaer county, and the cause of many broken homes and lives, as well as much suffering; and

Whereas, Lake View Sanatorium, which the county has provided for those suffering from this disease, is not of sufficient size, is declared by physicians to be poorly adapted to the treatment of this disease, and has no place for early cases or for children; and

Resolved, That we call upon the county authorities to establish a new sanatorium outside of the city of Troy, and separate from its almshouse, and equipped for the treatment of all stages of this disease.

Resolved, That a copy of this resolution be sent to the Clerk of the Board of Supervisors, W. C. Waite, Grafton, N. Y., and that a committee of three be appointed from this organization to join with others in urging this matter upon the Board of Supervisors.

FIFTH NEW YORK STATE CONFERENCE ON TAXATION.

Dear Sir:

he committee on arrangements in charge of the Fifth State Conference on Taxation has decided to hold this year's meetings in the auditorium of the new State Education Building, Albany, January 19, 20 and 21, 1915.

Year by year these gatherings have been growing in importance as factors for good in our government—more particularly in the securing of needed and desirable tax legislation. The committee has designated Albany as the nineteen-fifteen meeting-place, planning to organize the conference on Tuesday evening, and leave Wednesday and Thursday for the practical work of reading and discussing the papers, in the hope of securing a large attendance of legislators, who will at that time be in the midst of their session work. We believe also, that by meeting in Albany, we may be favored by

the presence of State officials and a visit and a few words from the Governor, a privilege we have been denied in former years by reason of the demands upon the time of the Chief Executive at this, his busiest season of the year.

Invitations are being sent to county officials—attorneys, treasurers, and supervisors; city officials—mayors, comptrollers and assessors; village presidents and assessors and all local town assessors. Following the custom of former years invitations are also extended to law schools and colleges and universities, maintaining courses in economics and finance; local boards of trade and chambers of commerce; commercial and civic organizations, statewide in membership, and taxpayers generally, who are especially urged and invited to attend and take part in the conference.

There are many citizens who are deeply interested in tax matters whom it is impossible for us to reach, and you make take this letter as authority from the committee to extend an invitation to our (your) conference to any citizen of this or a sister state who may have sufficient interest in taxation problems to attend. We desire the fullest and fairest discussion of the matters presented, and it is intended to have the papers to which we shall listen cover the widest and most liberal range of subjects. While our program has not yet been formulated, it is planned to devote a session each to

#### CONSTITUTIONAL CHANGES

1. Limitations, Mandates and Exemptions
2. As related to General Laws

#### SPECIAL SUBJECTS

1. New York City Financial Problems.
2. Taxation of Public Property
3. Miscellaneous Needs.

The program is in course of preparation, and will be mailed, as soon as completed, to any one on request.

We hope at this conference to convince the members of the Legislature of the fact, long recognized by economists, that taxation is a most important phase of government, and that the cumbersome and chaotic statutes with which we are at present struggling are in need of immediate revision—revision drastic and radical. Nothing will so thoroughly impress this fact and condition upon the members of our lawmaking bodies as a large and representative gathering of interested citizens. It is the men on the firing line, particularly the town assessors—men who deal directly and personally with taxation problems—who are best qualified to present to the Legislature the defects in our present laws and the methods for remedying them.

As stated, these conferences have been growing in efficiency. Each suc-

ceeding year marks increased attendance, added interest and greater excellence in the subject-matter of the papers, and in their discussion. We know that nineteen-fifteen is to continue this development and the committee speaks your co-operation to this end.

#### HEADQUARTERS AND HOTELS.

Headquarters and meetings, as stated, will be at the auditorium of the new State Education Building, opposite the Capitol. The management of the different hotels strongly advise that early accommodations be secured. The conference is scheduled for the busiest time of the year in Albany, when the presence of the Legislature greatly decreases the available accommodations. It is well therefore, to write as soon as possible and be certain of comfortable reservations.

Albany hotels are all conducted on the European plan.

The following communication was received and ordered printed in the minutes:

Dear Sir:

Subsequent to my recent inspection of your county jail I am sending you herewith a copy of my report.

The Prison Association is empowered and duty bound by law to inspect the correctional institutions in this state, and report the conditions found in each, annually, to the Legislature of the State of New York.

These reports constitute an official document of the Senate of the State of New York.

Very truly yours,

PHILIP KLEIN,  
Assistant Secretary

RENSSELAER COUNTY JAIL, TROY.

SEPTEMBER 17TH, 1914, BY PHILIP KLEIN; TIME 2 TO 3.30 P. M.

The Rensselaer County Jail possesses most of the qualifications for a good county jail so far as the traditional construction goes, but there are some shortcomings; for example the upper tier cannot be flushed because the floor leaks and the water trickles down from tier to tier; there is an insufficiency of electric lights in the corridor; we also find the usual weakness of the toilets, namely the rusting of the steel around the seats; the finish of the walls, both on the tiers and in the cellar, has been left in place instead of being painted.

Most of the faults, however, can be easily remedied in accordance with suggestions to be made below.

The classification of the inmates at the time of the inspection was satisfactory. There was a total of 53, of whom 48 were men and 5 women. Of the women, two were grand jury prisoners, two serving sentence and one was a witness.

The male population was divided as follows:—

	Adults.	Minors.
Grand Jury .....	15	1
Held for examination .....	0	2
Serving sentence .....	26	0
Awaiting trial .....	2	0
Awaiting transfer to Elmira Reformatory...	0	2
	—	—
	43	5

In order to show their distribution throughout the various tiers, in accordance with their proper classification, we give the following table.

First tier, southeast, vacant.

First tier, southwest, one prisoner serving sentence.

First tier, northeast, ten prisoners serving sentence.

First tier, northeast, ten grand jury prisoners.

Second tier, southeast, five juveniles.

Second tier, southwest, vacant.

Second tier, northeast, six prisoners serving sentence

Second tier, northwest, four grand jury prisoners, and five prisoners serving sentence.

Two men were confined in the hospital, one a patient and the other a prisoner watching him. Some of the prisoners had apparently not been definitely assigned.

In the women's department there were five inmates.

In the above distribution the law is violated in one case; that is, in the second tier northwest, where grand jury prisoners, and prisoners serving sentence are confined in the same corridor.

The cleanliness, order and general management of the jail was satisfactory. No amount of good management, however, can wipe out the chief evil of county jails, that is, the idleness of its inmates. The records of the jail from April 1st to September 20th, inclusive, show a daily average population as follows:

April .....	68.6
May .....	68.6
June .....	60.7
July .....	58.2
August .....	58.2
September .....	63.7

A total average of approximately 65.0.

Judging from the number of admissions per annum, and by the composition of the population on the day of inspection, we may assume that some 60 per cent. of its population consists of prisoners serving sentence. (There are no records in the jail from which to secure absolutely reliable information on this point). In other words, there is an average of from 35 to 40 prisoners serving sentence in the Rensselaer County jail, presumably condemned to hard labor.

Up to about a year ago there was no provision whatsoever for their employment. Recently, however, there have been installed some ten looms in the weaving shop, situated back of the jail yard. The looms are said to have cost \$85 each, or a total of \$850. Two instructors are employed at \$75 a month. Blankets and towels are manufactured. Up to the time of the inspection there had been some 400 yards of toweling and 350 blankets manufactured to be sold at the rate of 15 1-2 cents per yard for the toweling and \$3.15 to \$3.50 per blanket. There was a large accumulation of this material, said to be some 300 yards of toweling and 300 blankets, at the time of the inspection. Only 40 blankets and 100 yards of toweling had been sold up to that time. In other words, disregarding the amount of the investment in the construction of the shops, and the purchase of the looms, there was an income of approximately \$150, as against an expenditure on supervision alone of \$1,800 per annum. The cost of the material and other matters that it would be necessary to know in a proper estimate of the cost price were at that time not available. There is information that at the time of the writing of this report, December, 1914, a considerable amount of the blankets and toweling manufactured have been sold.

It is beyond question, and is admitted by the authorities, that this weaving industry at the jail is a considerable financial loss.

For the sake of the reformation and rehabilitation of the prisoners, however, this would be of minor importance, if the industry were of a kind best fitted for making men of them; but as a matter of fact, the number employed at the looms is very small. On several visits during the two days at the time of the inspection, the inspector never found more than three prisoners at work on the looms, although it is said that there are at times six to eight. But it is not enough that this six or eight of a population of 35 to 40 can be properly employed, and it is important that they be employed at hard, but healthful labor, of the kind that will strengthen their bodies and fit them, so far as possible, for labor on their discharge from jail.

The record of the weaving industry at the Rensselaer County jail does not justify it as a means of occupation, either from the standpoint of labor or the financial side of it, or the amount of work that can be furnished.

We propose, therefore, in our recommendations another plan for the employment of prisoners serving sentence in the jail.

#### RECOMMENDATIONS.

1. There are in Rensselaer County upwards of 1,100 miles of unimproved town highways. There is nothing that is more important for the development and prosperity of a county than good roads. Yet, from taxation and State aid there was available for the improvement of this 1,100 miles of highways in 1913, only \$56,198.66, or less than \$50 per mile, expended on road work proper on the town highways. Most of this money is expended on labor, and what is more, this labor on the town highways is not always available, and not always of the proper kind. It will be a blessing for the town highways to have the labor of upwards of thirty men given them. Why not perform a double service, both to the county on the one hand and to its prisoners on the other hand, by turning the county jail prisoners on the road work for the town highways.

Section 93 of the County Law, which is quoted here, in part, provides for such employment of prisoner:

".....The Board of Supervisors of the several counties are authorized to employ convicts under sentence to confinement in the county jails, in building and repairing penal institutions of the county, and in building and repairing the highways in their respective counties, or in preparing the materials for sale to and for the use of such counties, towns or villages and cities therein, and to make rules and regulations for their employment, and the said Board of Supervisors is hereby authorized to cause money to be raised by taxation for the purpose of furnishing materials and carrying this provision into effect; and the courts of this state are hereby authorized to sentence convicts committed to detention in the county jails to such hard labor as may be provided for them by the Board of Supervisors."

Section 70 of the Highway Law provides for the requisition of prisoners for town highways. We quote:

"After satisfying himself that proper quarters can be secured, the town superintendent may, with the consent of the town board, request the supervisor of the town, under the provisions of section 93 of the county law, to procure the services of prisoners serving sentence in the county jail, for general work upon the highways of the town."

Thus it would be possible to keep all prisoners healthfully employed through the spring, summer and early fall on highway work.

As to the particular plan of arrangement of this work, and for the pro-

vision of supplementary labor for the winter months, we submit the following plan, which we have discussed with the State Highway Department and with Mr. Charles A. Roemer, County Superintendent of Highways of Rensselaer County.

The Board of Supervisors should empower and direct the sheriff to furnish prisoners for labor on highways under the direction of the county superintendent of highways. If the work is to be done on town highways, the County Superintendent should arrange for the proper towns to make requisition for prisoners in accordance with section 70 of the Highway Law. The best financial arrangement would probably be to have the town for which such labor is performed pay the maintenance, guarding and transportation expenses of the prisoners. If this should prove to be too great, the county and town might share the maintenance expense, or the transportation expense, but should such work be performed on county roads, to be built wholly by the county, at county expense, the town should be required to contribute a certain percentage of the expense, as is done, for example, in Onondaga county. The management of the road work by the County Superintendent is suggested, because he would be in position to know just which towns are more in need of road improvements, and should, therefore, be favored.

Road work, whether on town highways or county roads, is, however, possible only during the open season. Yet there should be employment during the winter to keep the prisoners equally busy.

"We, therefore, propose that the county buy or lease a quarry, favorably situated from the standpoint of the jail and the railroads. On this quarry, under the supervision of the County Superintendent of Highways, there should be prepared during the winter months crushed stone to be applied on the highways of the county during the summer months. Quarrying can be carried on during the winter, except on the severest days.

This plan is entirely feasible, and has been worked out as whole or in part in other counties, and in the State prisons, particularly, the experience of Onondaga county is worthy of study in this connection.

In view of the still existing deplorable idleness in the Rensselaer County jail, of the inadequacy and impracticability of industrial occupation, such as weaving, in view of the needs of the roads, and the possibility of combining the greatest amount of good for the county, towns and the prisoners by this plan, we herewith strongly recommend that the Board of Supervisors appoint at its earliest convenience a committee to look into this matter, and to confer with Mr. Charles A. Roemer, County Superintendent of Highways, and with the Sheriff, for the purpose of realizing some such plan.

The county may be assured of the co-operation of the State Highways Department, of the officials of other counties who have had experience in this work, and of the Prison Association, which has made extensive inquiries into this subject.

It is to be hoped that next spring will find all of these prisoners properly employed, instead of loafing.

In addition to its other advantages, this plan we are sure will reduce the cost of maintenance of the prisoners, and probably discourage a number of them from seeking imprisonment for the sake of idleness.

2. For the improvement and preservation of the physical condition of the jail, we would make the following recommendations: First, that the toilet seats be surrounded with a layer of cement, covering the metal portion, and draining toward the center. This would prevent rust, and would secure cleaner toilets.

3. The cement finished walls of the various tiers should be smoothed and painted to make them accord with sanitary standards.

4. More electric lights should be supplied for the tiers.

5. The window panes in the womens' department looking toward the jail yard should be removed and ground glass panes substituted, to prevent unseemly conduct.

6. The cement walls in the cellars should also be smoothed and painted.

7. Grand jury prisoners should be given exercise in the fresh air in the jail yard.

8. A record should be kept at the jail which would show as a permanent record the number confined in the jail each day, subdivided as to male or female, male or female minors, serving sentence, awaiting trial or indicted, awaiting transfer, etc. It is impossible from the present record to tell anything beyond the total number of prisoners each day. To ascertain the average number of prisoners serving sentence from the records is impossible.

9. Prisoners serving sentence and those awaiting court action (unconvicted) should not be allowed to mingle, as was found to be the case on the second tier northwest. That is a violation of section 92 of the County Law.

Whereas, The road along the river, north of the City of Troy, commonly known as the River road, is usually in such condition that it is almost impassable a great part of the year; and

Whereas, Since the abolition of the toll bridges at Mechanicville and Stillwater have increased travel upon said road to a great extent; now, therefore, be it

Resolved, That the County Superintendent be directed to ascertain the cost of placing said road in good condition, with the use of gravel, and report to this Board at the April meeting.

Resolved, That the use of the rooms of the Board of Supervisors be given Camp Marcus D. Russell, Spanish-American War Veterans, to-night (January 14), for the annual installation of officers and reception of new members.

Whereas, Section 21 of the Public Health Law, being section 21 of Chap-

ter 49 of the Consolidated Laws of 1909, as amended by Chapter 559 of the Laws of 1913, provides in part as follows:

Section 21. General Powers and Duties of Local Health Boards.

" \* \* \* Every such local board, subject to the provisions of the Public Health Law, (meaning the boards of health of cities, towns and villages) and the sanitary code shall prescribe the duties and powers of the local health officer, who shall be its chief executive officer, and direct him in the performance of his duties, and fix his compensation, which in case of health officers in cities, town and villages, having a population of eight thousand or less, shall not be less than the equivalent of ten cents per annum, per inhabitant of the city, town or village, according to the last federal or state enumeration; and in cities, towns or villages having a population of more than eight thousand shall not be less than eight hundred dollars per annum. \* \* \* "; and

Whereas, Such provision compelling cities, towns and villages of less than eight thousand inhabitants to pay a health officer an annual salary, the amount of which shall not be less than the equivalent of ten cents per each inhabitant of the municipality, is unfair, unjust and an extravagant proposition, because of the fact that the duties performed by such official under the health law are reasonably not worth the amount which some cities, towns or villages are required to pay; and because in many instances the common council of the city, the trustees of the village or the town board have opportunities to contract with able and competent physicians to perform the required duties for a less sum than that required by the law to be paid, thereby wasting the public funds, and thereby casting an unnecessary burden of taxation upon the taxpayers of the municipality; now therefore be it

Resolved, That in the opinion of this Board, the said section of the Health Law above referred to should be amended so as to allow the common council of a city, or the board of trustees of a village, or the town board of a town to agree with a competent physician as to the salary which he shall receive for his services; and so as to give to said boards the power to fix such salary at such an amount without statutory limitations.

Further resolved, that the clerk of this Board be and he hereby is directed to forthwith forward to the Senator-elect from this Senatorial District, and the assemblymen-elect from this county, copies of this resolution with a request on behalf of this Board that they seek to amend the said section during the session of the next Legislature; and further

Resolved, That the County Attorney be and he hereby is directed to forthwith forward to the clerk of the Board of Supervisors of each county of the state having such a board, a copy of this resolution with an explanatory letter concerning the same, and a request that some action be taken by such boards to attain the desired amendment. ,

The resolutions adopted by the Citizens' New Sanatorium Committee, at the Central School March 20, 1915, to be brought before the Board of Supervisors by the Special Committee, were ordered printed in the minutes:

Whereas, A new and more adequate sanatorium for the treatment of tuberculosis is needed by the people of Rensselaer County for the following reasons:

- (1) Because Lakeview Sanatorium is crowded beyond its capacity.
- (2) Because it is fatally handicapped by lack of provision for early cases and especially for children.

(3) Because it is impossible to give patients the care which they need in the present building, which was never adapted to the treatment of tuberculosis.

(4) Because the Superintendent and nurses cannot now be sufficiently protected from the disease,

(5) Because the present building is located on the almshouse grounds, whose atmosphere of pauperism largely defeats the success of the Sanatorium.

(6) Because Lakeview is located in a city environment and influence instead of in the open country.

(7) Because the Board of Managers of Lakeview, after years of experience, are agreed that a crisis in the care of tuberculosis has been reached and that a new Sanatorium is imperative if Rensselaer County is to fight this battle successfully; and

Whereas, It is within the power of the Board of Supervisors of the County to provide a new Sanatorium adequate to the needs of persons suffering from this disease; therefore be it

RENSSELAER COUNTY BAR ASSOCIATION.

Troy, N. Y., February 2, 1915.

Mr. Job Doty, Chairman Board of Supervisors, Court House, Troy, N. Y.  
My Dear Mr. Doty:

In compliance with directions received at the meeting of the Rensselaer County Bar association, held in the court room on Monday, February first, I have the pleasure of transmitting to the Board of Supervisors through you, the following memorandum which was unanimously adopted:

On this, the opening day of the new building provided for the courts of the county and the recently established law library and the convening of the first term of a court of record therein, the members of the Bar of Rensselaer County desire to express their appreciation of the work done by the Board of Supervisors in the acquisition, remodeling and furnishing of this property. The suggestion that the church edifice be acquired by the county for public purposes and the integrity of these surroundings be thus preserved, originated with members of this bar and when presented to the Board of Supervisors was promptly accepted and acted upon by them. As a consequence we have a building substantial in construction, conveniently arranged and artistically decorated.

Our sincere thanks are due and are given to the Board for the heartiness of their response and the appropriations which have resulted in the addition of so beautiful a building to the public structures in this county."

Very respectfully yours,

WM. A. DUNNE,

Secretary.

STATE OF NEW YORK, STATE COMMISSION OF PRISONS.

Albany, February 9, 1915.

To the Board of Supervisors, Rensselaer County,

Troy, N. Y.

Gentlemen:

Enclosed find copy of report of inspection of the Rensselaer County Jail at Troy which was approved by the State Commission of Prisons at its meeting February 2, 1915.

I was directed to inform your Board that it is the judgment of this Commission that a sufficient number of persons should be employed to properly maintain this jail.

Very truly yours,

JOHN F. TREMAIN,

Secretary.

Rensselaer County Jail, Troy.

Inspected January 13, 1915. William P. Powers, Sheriff; Delmer Lynd, Under Sheriff.

The number of inmates at the time of inspection was 76 males and 7 females, classified as follows: Awaiting trial, 9 males and 1 female; held for the grand jury, 12 males and 4 females; serving sentence, 53 males and 2 females; Two maye minors were awaiting trial. The average number in custody during the past year was about 60. The law relative to classification and separation is observed.

The jail in general was clean, and with the exception of the closets was in excellent condition.

The beds are provided with mattresses and blankets. Some had pillows with slips and slip covers for the mattresses. An additional supply of bedding is needed at once. Sheets and pillow slips should be furnished. This would not only be more sanitary, but more economical, as it is not necessary to wash the blankets so frequently when sheets are used. These articles should be made and kept in regular repair by the inmates.

Many of the toilets were dirty. The Sheriff stated that this condition would at once be remedied. Some of them were rusted just below the seat. Enamel paint should be used immediately and it could be applied by the inmates. Toilet paper is now furnished by the county.

The washbowls were in fair condition; some were very clean and a few were very dirty.

There has been no "doubling up" in this jail during the term of the present Sheriff, there being but one prisoner in a cell. The prisoners are not exercised in the jail yard. They are compelled to bathe twice a week.

The jail is lighted by electricity. Additional electrical fixtures should be placed in the corridors, as they are poorly lighted.

The discipline appeared to be excellent. The officers, including the Sheriff, wear blue uniforms. In many of the county jails it is somewhat difficult to distinguish an officer from a prisoner.

There is not, in our judgment, a proper arrangement made for clothing prisoners.

The women's department is in charge of a matron, who has a room adjoining. This section of the jail was immaculate. The toilets and washbowls were as clean as it was possible to make them.

Cheese cloth curtains are hung in front of the cells, which can be readily drawn aside. The white women were detained in one side of the department and the colored women in the other.

The "trusties" who are employed in institution work are given three meals a day; The rest of the inmates are given but two—at 9 a. m. and 2 p. m. The bill of fare is the same as that mentioned in the report of inspection made May 12, 1914. The Sheriff expects to make some changes in it.

A room in the basement is being fitted up for a mess hall, and as soon as it is completed the male prisoners will take their meals there. A room in the women's department will be used by the women as a dining room. No more meals will be served in the cells. This is the first time that this system has ever been absolutely adopted in a county jail of this state.

There is a dining room for officers in the basement, in rear of the boiler room. This is also a new departure.

No food for prisoners in addition to the regular jail fare can be brought in unless ordered by the jail physician. This order has been in effect since

January 1, 1915. The rule relative to visiting days has been rigidly enforced since that date.

A store room is being fitted up in the basement. The keys to this room are to be held by the Sheriff and Under Sheriff only, and a regular system of issuing supplies will be adopted. This should result in both efficiency and economy.

A night watchman goes through the jail every hour during the night and the stations for "ringing in," which were installed when the jail was built, are now, we were informed, being used for the first time.

No work was being done in the workshop in the rear of the jail, but two prisoners were getting the looms ready for use. The Sheriff expects to resume at once the manufacture of blankets and toweling. He also expects to employ at least one prisoner making mats. There should be no difficulty in disposing of the product. This commission annually issues certificates for thousands of blankets because the prisoners are unable to fill the orders received. After the needs of Rensselaer county and the municipalities in the county have been supplied the remaining product probably can be sold to other public institutions or municipalities outside the county. (See Section 175 of the Prison Law.)

The Sheriff is to be commended for the interest shown in his work, and if his plans are carried out he will undoubtedly have one of the model county jails of the state.

The Sheriff has filed a statement with this Commission from which the following is taken:

"Heretofore, down to January 1, 1915, there were allowed to the Sheriff the following assistants and employees:

Position.	Monthly Compensation.
One Under Sheriff .....	\$116 66
One Jailor .....	91 66
Assistant Jailor .....	91 66
One Janitor and Process Server .....	60 00
One Janitor and Process Server .....	60 00
One Jail Matron .....	40 00
One Cook for Prisoners .....	33 34
One Assistant Cook for Prisoners .....	33 34
One Firemen and Process Server .....	75 00
One Firemen and Process Server .....	75 00
One Firemen and Process Server .....	75 00
One Process Server .....	75 00
One Process Server .....	75 00
One Process Server .....	75 00
12 Court Attendants, each .....	50 00

December 15, 1914, the Board of Supervisors, by a vote of fifteen to twelve, passed a resolution which reads as follows:

'Resolved, That on and after January 1, 1915, the Sheriff of this county be and is empowered to appoint only the following assistants, employes or officers, at the following amount of compensation for their respective services:

One Under Sheriff, per month .....	\$75 00
One Jailor, per month .....	75 00
One Assistant Jailor, per month .....	50 00
One Jail Matron, per month .....	40 00

One Cook for Prisoners, per month .....	30 09
One Fireman, per month .....	50 00
One Process Server, per month .....	50 00
Three Court officers, each per month .....	50 00

The Sheriff further says in his statement:

"The Board has provided for only one janitor. The jail is a large, recently constructed building accommodating the Sheriff and his office force, and also with provision of over one hundred prisoners. For the proper care of the building there should be two janitors; one janitor cannot do the work required.

"The Supervisors have provided but one cook at \$30 a month. It is doubtful whether a competent cook can be engaged at that wage, and one cook cannot possibly do the work required. Two cooks are needed for the proper administration of the jail.

"The Board of Supervisors have provided for only one fireman, at \$50 a month. A competent, reliable fireman cannot be engaged for that compensation, and as under the labor law an employe in the jail cannot be required to work more than eight hours a day, and on account of the large amount of work required and the almost constant supervision required during the winter months, three firemen are necessary for the proper care of the boilers at the jail.

"The Board of Supervisors have provided only one process server, at \$50 a month. Under previous administrations there were three process servers, and in addition the three firemen when not engaged as such could be called upon to act as process servers. Two of the process servers were employed formerly as instructors in the workshop at the jail when not required to act as process servers. This important work of instruction must be abandoned unless your petitioner is permitted to appoint the three process servers as the Sheriff of Rensselaer county formerly was authorized to do.

"By reason of the aforesaid resolution of the Board of Supervisors, the laws relating to the management of the affairs of said county jail are being violated and said inmates, if no other provision be made for them, will be negligently and improperly treated. By said resolution inadequate provision has been made for their sustenance and care as well as their suitable and proper well being."

The Sheriff informed us that the force necessary to operate the jail properly was on duty and it was hoped that some means would be devised to settle the situation regarding the employes.

#### RECOMMENDATIONS.

That the State Commission of Prisons take such action as it may deem necessary to compel the Board of Supervisors to maintain the Rensselaer County Jail in a manner which will "Secure the best sanitary conditions of the buildings \* \* \* \* and protect and preserve the health of the inmates."

That some of the sentenced male prisoners be employed in the workshop at weaving toweling and blankets and making mats.

That sentenced male prisoners be employed on the county farm and in a stone quarry, as recommended in previous reports.

That two sewing machines be installed in the women's department and the inmates of that department be employed as seamstresses.

That sufficient bedding be purchased, especially sheets and pillow cases.

That the side walls of the jail be painted, the steel work repainted where

necessary, and the toilets put in proper condition to prevent rusting. This work can be done by inmates.

That additional electric lights be placed in the corridors.

That a proper supply of clothing be provided. In many jails the clothing of prisoners is fumigated and stored and jail clothing issued to them of a kind which can be easily laundered.

That a proper fumigating and disinfecting plant be installed.

That the prisoners be given three meals a day.

Respectfully submitted,

RUDOLPH F. DIEDLING,

Commissioner.

PHILIP G. ROOSA,

Inspector.

THE TRAVELERS' INSURANCE COMPANY.

April 8, 1915.

Rensselaer County Court House, south side of Congress and Second streets,  
Troy, N. Y.

Gentlemen:

On the 3rd day of April, 1915, we made a regular inspection of the elevator located at south side of Congress and Second streets and covered by policy, NG—614,223, and the conditions as reported by the inspector are satisfactory.

Yours truly,

GEORGE GILMOUR,  
Chief Engineer.

The following communication was received and ordered printed in the minutes:

Troy, N. Y., March 15, 1915.

To the Honorable, the Board of Supervisors of Rensselaer County:

We, the Grand Jury of Rensselaer County in session duly convened in connection with the March trial term of the Rensselaer Supreme Court, respectfully submit to your honorable body that in connection with our duties as grand jurors we visited the House of Industry and the Rensselaer County Jail, that at both of said institutions we were received most cordially and courteously by the Acting Superintendent of the Poor and his staff, and the Sheriff and the members of his official family. We are pleased to submit that at these institutions we found conditions indicating progress and a spirit of management beyond reproach. In connection with the House of Industry we found that the lighting system throughout this in-

stitution is not that which it should be, and in connection with this respectfully recommend the following:

First—We found that the lighting system throughout the House of Industry is antiquated and unsatisfactory, and should, we believe, be replaced throughout with a new and complete system of electric lighting

Second—We believe that the equipping of the said institution with such a system of lighting would be not only a protection to the inmates, affording them speedy escape from the building in case of fire, but will also give to those connected with said institution a fuller measure of comfort and pleasure in their immediate surroundings.

In conclusion we desire to convey to your Honorable Board an expression of our appreciation for the many courtesies that have been extended to us by all of the officials of Rensselaer County, and to that end submit these recommendations and these expressions of courtesy and regard for your Board, and to all of the public officials of this County. All of which is respectfully submitted by the Grand-Jury of Rensselaer County in session and regularly convened this 17th day of March, 1915.

Adopted by the Grand Jury of Rensselaer County.

BUDDINGTON SHARPE,

Foreman.

I hereby certify to the above as a true and correct copy of the recommendations of the Grand Jury of Rensselaer County adopted this 17th day of March, 1915.

Attest.

ARTHUR C. FERGUSON,

Clerk.

The following report was received and ordered printed in the minutes:

#### THE PRISON ASSOCIATION OF NEW YORK.

135 East Fifteenth Street, New York.

April 9, 1915.

Clerk Board of Supervisors, Rensselaer County Jail, Troy, N. Y.

Dear Sir: Subsequent to my recent inspection of you county jail I am sending you herewith a copy of my report.

The Prison Association is empowered and duty bound by law to inspect the correctional institutions in this state, and report the conditions found in each, annually, to the Legislature of the State of New York.

These reports constitute an official document of the Senate of the State of New York.

J. R. CASS,

Assistant Secretary.

Rensselaer County Jail, Troy, Inspected March 6, 1915, by E. R. Cass,

10:35 a. m. to 4:05 p. m.

The population at the time of the inspection number 67, classified as follows:

Awaiting trial— 8 adult males,

Awaiting trial— 2 adult females,

Held for grand jury—10 adult males.

Serving sentence—40 adult males,

Serving sentence—4 minor males,

Serving sentence—3 adult females.

The newly elected Sheriff is W. P. Powers. The jail staff consists of:

- 1 jailer at \$900 per annum,
- An assistant jailer at \$600 per annum,
- 2 janitors, acting as keepers, at \$600 per annum,
- 3 firemen, at \$600 per annum,
- 1 male cook, at \$360 per annum,
- 1 night watchman, at \$600 per annum,
- 1 matron, at \$480 per annum.

Each of the above receive one meal a day.

Not all of the above incumbents are receiving a salary. This is due to the action of the Board of Supervisors during the last part of 1914, reducing the Sheriff's staff and also the salaries. There is now a bill pending in the Legislature which will restore the usual number of officers, and also increase their salaries to the former standards. The bill will definitely specify the number of subordinates who are to be attached to the Sheriff's office, both in the administration of the jail and in the court work. Their salaries will also be fixed.

The condition of cleanliness on each of the three floors in both wings of the jail was fairly satisfactory. It cannot be said that there was any serious evidence of neglect on the part of the officers. The chief objection is, that in some parts the floor work was covered with dust. This did not seem to be entirely proper, because of the large number of inmates available for employment.

The cement floor work is breaking away from the side walls in the corridors and in the cells, particularly on the second and third floors. A hose cannot be used to flush the floors above the first, because water leaks through the floors below.

The attics in the north and south wings were not particularly clean and in both attics books and paper were carelessly strewn about.

In the basement, the laundry and the kitchen were satisfactorily clean and in good order.

A section of the cellar in the east side of the north wing, formerly used as a place to store vegetables, disinfectants, etc., is now being transformed into a dining room. The side walls and the ceiling have been painted a bright color, electric lights have been installed, and portable tables are attached to the side walls. The Sheriff's plan is that all prisoners, both grand jury and those serving sentence, will take their meals in this dining room, with the exception of the women, and that no food will be brought into the upper part of the jail. This plan and the general improvement of the basement in this wing is highly commendable.

Part of the basement in the south wing has been made into an officers' dining room. This is also commendable. Another part of the basement in the same wing is now used as a storeroom, for foodstuff and various supplies. A system is used to record the time and amount or nature of the supplies taken from the storeroom.

The prisoners expressed satisfaction with the treatment accorded to them by the Sheriff and his subordinates.

At the time of the last inspection an analysis was made of the shopwork conducted at the jail. It was clearly shown that the plan in operation at that time was highly unsatisfactory, first, because it did not furnish sufficient labor for the inmates, and secondly, because it was a financial loss to the county. Since the first of this year no blankets, towels, etc., have been manufactured. It was stated that the looms were being renovated so that a

product, similar in size and quality to that produced by the state prisons can be manufactured.

At the time of the inspection six machines were in use and parts of the other four, it was said, were at Dannemora prison undergoing adjustment. The Sheriff hopes to make arrangements with the State Prison Department and the Prison Commission so that he can sell the products of the jail industries in other counties of the state. There should be no trouble in this case as to the disposition of the product; perhaps the industries can be made more satisfactory financially. But no matter how well developed they will not satisfactorily solve the problem of idleness among the sentenced prisoners.

The essential elements of incarceration in the county jail should be principally the protection of society and the correction and reformation of the prisoners. Under the present system the chief element is punitive, and ultimately this is of little help or benefit to most of the prisoners. The plan of employing the inmates of the jail on the county poorhouse farm, a very short distance from the jail, is herewith strongly proposed. A plan of this kind is satisfactorily conducted in Tioga county. Arrangements can possibly be made to use the police department patrol wagon to transport the prisoners to and from the farm. There is much farm land available for cultivation and improvement. It is suggested that the Board of Supervisors appoint a committee to take this matter up with the Superintendent of the poorhouse and the Sheriff in order that arrangements can be made. There is no doubt but what the plan is feasible and the matter of details can be worked out by county officials. In order to carry out a plan of this kind it will not be necessary to permit the free commingling of the inmates of the poorhouse and the jail. Under proper supervision the danger of contamination of the inmates of the poorhouse by the jail inmates can be guarded against.

Rensselaer County is fortunate in having so many different opportunities for the employment of the jail inmates. In our last report it was shown that under Section 93 of the County Law the Board has the power to utilize the jail labor and under Section 70 of the State Highway Law, to direct this labor on the town highways of the County. It is a fact that there are many miles of highway in the County that are badly in need of repair and improvement. The natural facilities for undertaking this work with jail labor are splendid. In the towns of Sand Lake, Nassau, Stephentown, Petersburg and Brunswick there is much field stone, as well as old stone walls and many quarries. All of these sources, one or more of which are available in any of the above mentioned towns, will supply sufficient stone to carry on this work. The town of Berlin is practically without improved roads. It would not be well to establish a central quarry because all of the towns are justified in expecting some use of the jail labor. A central quarry would add to the cost of transportation, and in some instances make the work too expensive. To carry on the highway work with the jail labor it will be necessary to establish camps in the various towns where the work is going on. This was successfully done in Onondaga County. The fear of prisoners escaping is too seriously considered. In the case of the Onondaga camps there have been practically no escapes and in all of the State prison camps, in operation during the past year, not more than five escapes were recorded. It is sometimes argued that by employing prisoners on the highways they are unjustly humiliated. The prisoners are in the best position to judge of that, and the consensus of opinion from them, gathered from visits to State road camps and the Onondaga camps, and in other places where the prisoners are em-

ployed on a county jail farm or on the highways, in that they are only too glad to have an opportunity to do some kind of work and that they do not feel at all humiliated. It will not be necessary to employ the use of striped uniforms or a ball and chain. Experience in this state teaches us that such practices are unnecessary. It is sometimes stated that by employing the inmates of the jail on highways, free labor is seriously injured. The opinion of the officials of the State Highway Commission and the various County Superintendents of Highways is that this criticism is entirely unwarranted. As a matter of fact in many instances it has been said that there is not sufficient free labor available. Furthermore, the amount of work to be performed is so great that there is more than enough for both free and convict labor. It is also true that many of the towns in the different counties will never be able to raise sufficient money to undertake the necessary work that should be done on the highways if contracts are to be solely relied upon. It is strongly urged that the Board confer with the County and Town Superintendents of Highways in order to arrange the details necessary to carry on this work. Some action should be taken by the Board to break up the deplorable idleness in the jail. The present unintelligent system of dealing with the inmates levies a big financial burden upon the taxpayers with no recompense from the prisoners.

The following petition was received and ordered printed in the minutes:

Mr. E. J. Quinlan presented the following petition from the town of Stephentown

To the Honorable Board of Supervisors of Rensselaer County:

We, the undersigned, the town clerk, the justices of the peace and commissioner of highways in the town of Stephentown in said county, respectfully request and petition your honorable body to authorize the Supervisor of said town of Stephentown to borrow on the credit of the said town the sum of (\$350.00) three hundred and fifty dollars giving note or notes therefore in his official capacity, to be used by the Supervisor of said town for Supt.'s salary of said town, and that said indebtedness be levied and collected in the next annual tax levy in pursuance of the statute in such case made and provided.

### BUREAU OF ENGINEERING,

Troy, April 14, 1915

The Board of Supervisors, County of Rensselaer.  
Gentlemen:

The City of Troy, through the Chamber of Commerce, city officials and officials of the United Traction Company, are endeavoring to have removed all obstructions from the curb line on streets which have been designated by the Common Council of the City of Troy, as streets on which the new lighting system shall be installed.

In the clearing of the curb, steps have been taken to have the United Traction Company remove all of its poles within this lighting zone, and attach to adjacent building a span wire now attached to the pole and supporting their trolley conduit. There are numerous buildings in the City of Troy upon which these span wires have been attached, notably the Frear building, Keenan building, Quackenbush building Record building and State Bank building.

The United Traction Company now has its pole gang in Troy attaching the span wires to other pieces of property for which we have secured consent.

There is now maintained in front of the Court House, on Congress street, a United Traction Company pole. We are desirous of having this pole removed and the span wire attached to the building. There is prob-

ably no building in the City of Troy which could afford to have the span wire attached to it better than the Court House. In order that this work may progress uniformly and rapidly, we ask your cooperation in this matter.

Yours very truly,

A. E. ROCHE,

City Engineer.

By Mr. Riordan—

Whereas, The United Traction Company is now removing its poles from the curbs in certain sections of the city, and

Whereas, There is a pole in front of this building which the city officials and Chamber of Commerce officials are desirous of having removed;

Resolved, That the President of this Board be and he hereby is empowered to execute the accompanying agreement between the County of Rensselaer and the United Traction Company for the attachment of span wires to this County Court House building.

The following petition was received and ordered printed in the minutes and referred to Erroneous and Omitted Tax Committee.

#### PETITION.

Mr. Cottrell presented the following, which was on motion received and ordered printed in the minutes and referred to the Committee on Refunding Taxes.

In the matter of the application of Mrs. T. H. Palmer to have certain taxes, illegally collected, refunded by the Board of Supervisors of the County of Rensselaer, N. Y.

To the Honorable, the Board of Supervisors of the County of Rensselaer, N. Y.:

The petition of Mrs. T. H. Palmer of the town of Hoosick, Rensselaer County, N. Y., respectfully shows to your Honorable Body, as per attached statement.

46 Fourth Street, Hoosick Falls, N. Y.

March 29, 1915.

#### TO THE BOARD OF SUPERVISORS.

Mr. Jay C. Cottrell, Supervisor Town of Hoosick.

Gentlemen: In accordance with collector's town tax notice, posted in December, for 1914 town tax, I called on the collector of the town of Hoosick to pay taxes on the estate of Reuben Smith, said Reuben Smith having been my father.

I was informed by the town tax collector that the tax due carried an unpaid school tax amounting to \$5.94. The collector also advised me that he had no discretion in the matter and that it was necessary for him to collect the amount shown on tax bill, even though the school tax mentioned had been paid. Thereupon, I paid said collector the tax amounting to \$12.33, which included arrears for 1913 school tax, district No. 1, amounting to \$5.94, which I had paid to Daniel J. Hennessey on November 6, 1913.

I wish you to consider this letter as claim for the tax of \$5.94, which I

paid and which is covered by the town tax collector's receipt attached herewith, and by Daniel J. Hennessey's school tax collector's receipt for \$5.58, said receipt also attached herewith.

You will note there is a difference of 46 cents between the receipt of Hennessey and said town tax collector. This I am advised is accounted for by interest having been added from the date of expiration of school tax until same was included in the town tax assessment.

I will be obliged to you if you will kindly see that this claim for \$5.94 is passed to the attention of your committee having such matters in charge, and that you will refund me this amount, also return, if you will please, the school tax collector's and town tax collector's receipts enclosed herewith.

Very truly yours,

MRS. T. H. PALMER.

Dated April 14, 1915.

County of Rensselaer, ss.:

Mrs. T. H. Palmer being duly sworn, says that she is the above named petitioner; that she has read the attached statement and knows the contents thereof, and that the same is true of her own knowledge.

The following communication was received and ordered printed in the minutes:

To the Honorable the Board of Supervisors of Rensselaer County, New York:

Genelemen:

The undersigned committee on the Lakeview Sanitarium, together with the two additional members thereto appointed by the chair, pursuant to resolution adopted by your honorable body December 4, 1914, "to take under advisability the feasibility of selecting a suitable site in one of the towns of the County and the erection and equipping of a tuberculosis hospital thereon, upon the completion of which the present sanitarium be utilized for County hospital purposes," beg leave to report as follows:

That they have given said matter very careful consideration, have made inquiries in many directions bearing thereon, have made personal investigation of the proposition and have listened with much interest to the very instructive remarks made by the different speakers at the opening session of this Board on the 13th inst. in relation to the matter of the necessity of such institution. On this matter of question or necessity your committee does not pass or venture, in this report, to express any opinion for the reason that the scope and range of the appointment of this committee does not cover or include the matter of question of necessity. Your committee does report, however, that it believes it would be perfectly feasible and practical to select a suitable site in one of the towns of the County and to erect thereon and equip a tuberculosis hospital and that thereafter upon the completion of such hospital it would be not only practical but proper to use the present sanitarium for County hospital purposes.

JAMES J. W. VOSBURGH,

Chairman.

JOHN F. SHANNON,

STATE OF NEW YORK, TAX DEPARTMENT.

Albany, May 21, 1915.

William C. Waite, Clerk of the Board of Supervisors, Court House, Troy, N. Y.:

Dear Sir:

Enclosed find copy of order passed by this commission at its meeting held May 17, 1915, requiring special commissions of equalization to use the rule of equalization therein set forth and further requiring that the table of percentages used in making the equalization be filed at the commission's office not later than December 15th of each year.

Very truly yours,

STATE TAX COMMISSION,

HORACE G. TENANT,

Secretary.

At a meeting of the State Tax Commission held at the capitol in the city of Albany on the 17th day of May, 1915.

Present, Martin Saxe, president; Walter H. Knapp, Ralph W. Thomas, commissioners.

In the matter of establishing a definite rule of equalization to be used by special commissioners of equalization appointed under section 51 of the tax law or under a special act of the legislature.

Whereas, In the judgment of this commission it is to the best interest of any county and the assessment of property generally that a fixed rule of equalization be used in all the counties of the state, upon motion of Commissioner Knapp, seconded by Commissioner Thomas, it is

Ordered, That the State Tax Commission require the special commissioners of equalization appointed under section 51 of the tax law or under a special act of the legislature to use the following rule of equalization:

First—The ratio or percentage which the assessed value of the real property in each tax district bears to its full value shall be established by the commission upon inquiry and investigation conducted by it.

Second—From such ratio or percentage value the commission shall then determine the aggregate full value of all real property of each tax district by dividing the assessment value thereof by the ratio or percentage value as ascertained and fixed for that district.

Third—The average rate of assessment of the real property in the county shall then be determined by dividing the aggregate assessed value of the real property in all the tax districts by the aggregate full value thereof as ascertained in the manner aforesaid.

Fourth—The true equalized value for each tax district shall then be determined by multiplying the full value of such real property in that tax district by the average rate of assessment for the county.

Fifth—Deduct from or add to the assessed value of the several tax districts the difference between the assessed value and the equalized value as so ascertained so that the amount which the respective tax districts are increased or diminished from the assessed value will be hown and the total assessed value for the county will not be increased or diminished, and it is further

Ordered, That notice of this requirement be served on the chairmen and clerks of the boards of supervisors having commissions of equalization appointed under section 51 of the tax law or by special act of the legislature, and that it will be further required that the clerks of boards of supervisors of such counties report to this commission the table of percentages employed in making the equalization at a date not later than December 15th of each year.

In Witness Whereof, the State Tax Commission by its secretary (L.S.) duly authorized, has hereunto set its hand and affixed its seal this 17th day of May, 1915.

STATE TAX COMMISSION,

HORACE G. TENANT,

Secretary.

To William C. Wait, Clerk Board of Supervisors, Rensselaer County Court House, Troy, N. Y.

The following communication was received and ordered printed in the minutes:

Troy, N. Y., May 15th, 1915.

To the Honorable the Board of Supervisors of Rensselaer County, Troy, N. Y. Gtnelemen:

At the meeting of the Particular Council of the Society of St. Vincent of Paul of Troy, N. Y., held on Sunday, May 9th, representatives of the different conferences connected with the council discussed the matter of the new tuberculosis sanitarium to be erected in Rensselaer county, and it was

the unanimous opinion that the proposition of erecting such an institution should receive the hearty co-operation of all concerned in the welfare of the community. While the cost might lead some to believe that it was an additional expense, still in comparison with the great benefits derived, the expense of the building and upkeep would indeed be offset.

The secretary of the society was directed to transmit the views of the organization to you, and at the same time to express the earnest wish that this worthy object may be accomplished.

I remains very truly yours,

JAMES H. CONNELL,

Secretary Partuiclur Council.

The following report was received and ordered printed in the minutes:

#### STATE OF NEW YORK—STATE BOARD OF CHARITIES.

Department of State and Alien Poor.

Report of Inspection of the Rensselaer County Almshouse, Troy, N. Y.

Made by Inspector M. W. Anderson, April 15-16, 1915.

Superintendent of the Poor, Harry A. Sheldon, began service January 1, 1915.

Keeper, W. Henry Legal, appointed January 1, 1915.

Post office address and railroad station, Troy, N. Y.

Capacity for men, 162; capacity for women, 103; total, 262

Estimated value of buildings and land, \$100,000.

Location—The Rensselaer County Almshouse also known as the House of Industry, is located within the limits of the city of Troy, about five minutes' walk from the Albia trolley line.

The Buildings—The buildings for inmates are all of brick, two stories in height. An administration building centrally located is flanked on either side by a dormitory, for the men at the right and for the women at the left. Beyond each dormitory and connected with it by an enclosed corridor is a small two-story hospital section. At the rear, similarly connected, is the service building containing the kitchen, dining rooms, laundry and boiler room.

Improvements—Improvements since the last inspection include the following

1. The repainting and kalsomining of the entire interior of the service building and of the corridor leading to it.
2. Kalsomining of the interior of the hog pens and the repainting of the iron frame work.
3. Repapering and plastering in the administration section.

4. Equipment of an operating room including the purchase of a white enameled instrument cabinet, stand and sterilizer, and the installation of an operating table loaned by the visiting physician.

**Fire Protection.**—Although the buildings are constructed of fire-resisting material, the interior floors, stairs and partitions are of wood, old and highly inflammable. The dormitories for men are provided with two exterior iron fire escapes which afford means of egress to the occupants of the first and second floors and of the attic. These escapes are easy of access from the interior. Similar fire escapes should be constructed on the women's dormitory which at present has no exterior means of exit except through the hospital building. Interior stairways throughout the buildings are steel and the treads narrow and worn. Both dormitories are equipped with standpipes with hose attached and chemical extinguishers are plentifully distributed. City water and the protection of the city fire department are available. Two watchmen are employed who use a clock system to record visits and are on duty twelve hours each, one during the day and the other by night. The open flame gas burners used for lighting purposes increase the fire risk. To guard against the danger of the persons or clothing of inmates coming in contact with the open flames, the burners should be equipped with wire globes. These are especially needed in the kitchen where the fixtures are low.

**Working Equipment.**—The buildings are heated by steam generated in the boiler room at the rear of the service building and are lighted throughout by open flame gas burners. The corridors and dormitories are dark and gloomy and the constant burning of the gas devitalizes the air and has a tendency to make it poisonous. The installation of electric lights, as previously recommended by the State Board of Charities, would promote the health, safety and comfort of inmates. The barns are already lighted by electricity and the wiring should be extended to include all of the buildings occupied by inmates.

City water and sewage facilities are provided. The power laundry is located at the rear of the kitchen. The equipment includes stationary tubs, rotary washer, extractor, mangle and steam dry racks. For the protection of operatives a wire screen should be placed over the top of the extractor.

**Hygiene and Sanitation.**—The interiors of the various buildings were clean and in general good order throughout. Floors are of wood, old and with difficulty kept free from dust. The present method of treating them with a preparation of oil is apparently giving satisfaction. Dormitories, especially in the men's building, are dark and poorly ventilated. Beds, except in the hospital section, consist of iron frames and straw ticks. Spring beds with mattresses or pads would prove more comfortable and more sanitary and should be used throughout the institution. Beds are crowded uncomfortably close together and owing to the fact that with the exception of a small smoking room no sitting rooms are provided, many of them are occupied by day as well as by night. This gives the dormitories a somewhat disordered appearance and prevents them from being properly aired during the day. Ventilated lockers are needed for the men's outer clothing. Toilet and bathing facilities are adequate and toilet rooms were clean. The plumbing is old and some of the toilets which are of iron, enameled over, are badly stained and in need of renewing.

All inmates are required to bathe on admission and once a week thereafter, under supervision. Clean clothing and bed linen is supplied weekly. Beds were well made and no vermin was seen. Soiled clothing and linen is

removed promptly to the laundry and that of the hospital is sterilized before being washed. Inmates appeared clean and suitably clad. Reserve clothing and that which is returned from the laundry is kept in suitable storerooms. These rooms were clean and in excellent order.

**Care of the Sick**—The nursing staff consists of a graduate nurse and a male assistant who has had considerable practical experience. Accommodations for the care of the sick are totally inadequate. In the women's hospital there are ten beds on the first floor and a twelve-bed ward and two-bed room on the floor above. In addition to the hospital there is an annex which contains a three-bed room and a seven-bed ward for convalescent patients. All of the beds were occupied and several women, sick and in need of hospital care, were still in the dormitories because no other place was available for them. In the men's building a similar condition exists.

The first floor of the hospital contains thirteen beds and the second floor one twelve-bed ward with a four-bed room adjacent to it in which an effort is made to segregate venereal cases. But as the number of such persons present is usually far in excess of the capacity of the rooms the desirable separation of this class of patients cannot be satisfactorily effected. There were four beds in the men's annex and twelve in the convalescent room. All of the beds were occupied and several sick men were seen in the dormitories for whom no hospital accommodations were available. This enforced intermingling of the sick with the well is injurious to both classes. It increases the danger of infection, greatly magnifies the work of the nursing staff, and prevents the proper ventilation of the dormitories during the day. In the event of a fire in the institution the removal of the sick and helpless inmates could scarcely be accomplished without loss of life.

The need of a separate building, as previously recommended by the State Board of Charities, is imperative. If the proposed plan for the erection of a new tuberculosis hospital on a rural site shall be carried into effect, the building which is at present occupied by the Lakeview Sanatorium will be available for general hospital purposes. Although the entire capacity of this institution does not exceed fifty beds, this number would be sufficient for the treatment of acute and infected cases and the hospital wards of the almshouse could then be used for chronic cases.

The equipment of a modern operating room marks a decided step in advance. Since its opening in January of the present year, an average of about two operations a month have been performed at the institution with satisfactory results. The visiting physician is present on at least three days in the week and always on summons.

**Overcrowding**—One of the serious problems of the institution is that of overcrowding. During the past few years there has been a steady increase in the number of males admitted, particularly during the winter months. This growth in population has been unaccompanied by a corresponding increase in the capacity of the institution. The following statistics show the number of men in the almshouse on the dates of recent inspections in comparison with the normal capacity of the men's building:

Date.	Number of	
	Men Present.	Capacity.
May 2, 1912 .....	159	162
April 18, 1913 .....	167	162
December 5, 1913 ....	211	162
January 3, 1914 .....	227	162

October 7, 1914 .....	176	162
January 5, 1915 .....	239	162
April 15, 1915 .....	265	162

The increase in the census could only be provided for by the opening of the attic in the men's building for dormitory purposes. This room is low, dark and improperly ventilated. On January 3, 1914, there were eighteen men sleeping in the attic. On January 5, 1915, this number had been increased to thirty-nine and on the day of inspection there were sixty-seven beds in the attic, of which sixty were occupied. In the opinion of the keeper the census will probably be reduced by fifty within the next month as he estimates that there is that number of men sufficiently able-bodied to maintain themselves outside of the institution during the summer months. Even with this reduction, however, owing to the crowded condition of the hospital wards, it will probably be necessary to continue the use of the attic as a dormitory.

In view of the fact that the present capacity is insufficient to properly accommodate the number of inmates received and that the buildings are too old to admit of satisfactory renovation, it is evident that some plan for the enlargement of the institution must be adopted in the near future, either by the erection of new dormitories on the present site, or the removal of the institution to a suburban location. For several reasons the latter arrangement seems preferable. The proximity of the almshouse to the city renders it liable to certain abuses, chief among which are the intemperance of inmates and because of its accessibility, the tendency to overcrowd the institution especially during the winter with able-bodied inmates. The present land is valuable for residence sites and for the size of the institution a larger farm at a greater distance from the city is desirable.

**The Kitchen and Dietary**—The kitchen is in charge of an experienced cook. The floor is of wood with concrete around the portion where cooking is done and the room is completely screened in summer. The equipment for the preparation of food is adequate and includes two copper kettles for coffee and tea, two vegetable steamers and two large kettles for meat, soup or stews. The cold storage room where meat is kept is large and was found clean and odorless.

Adjacent to the kitchen are separate dining rooms for the men and women. White dishes are used and the tables in the women's dining room are covered with white oilcloth. In the men's dining room the tables are less attractive because the oilcloth used is of a dark color. Benches are provided for the men and chairs for the women. The appearance of these rooms has been greatly improved by the recent repainting and kalsomining of the walls and ceilings.

The serving of the meals seems to be well arranged and there is little delay between the apportionment of food and the entrance of inmates. Food is of good quality and well cooked but the menu for breakfast and supper is monotonous and a more liberal diet is recommended. Breakfasts and suppers are similar throughout the week except that on Friday and Sunday mornings oatmeal is added to the menu. Dinners are varied throughout the week as follows: Pork and beans is served on Mondays, beef stew with vegetables on Tuesdays, corned beef with cabbage and potatoes on Wednesdays, vegetable soup on Thursdays, creamed codfish on Fridays, rice on Saturdays and fresh meat with potatoes on Sundays. A change of the days

upon which the different menus are served would add pleasing variety to the dietary.

The meals served to inmates on the day of inspection were as follows:

Breakfast, bread, coffee. Dinner, beef stew with vegetables, tea, bread. Supper, bread, tea.

The dietary for those who work includes butter and steak for breakfast. Meals for hospital patients are prepared in the kitchens adjoining the hospital sections and the diet is prescribed by the physician or nurse in charge.

The Farm—The farm contains about 145 acres, of which about 90 acres under cultivation. The farm supplies the institution with vegetables and dairy products but the harvesting of small fruits and vegetables is said to be difficult on account of trespassers from the thickly settled communities near by.

The farm buildings include a frame barn for swine with concrete floor and separate pens, a brick cow barn with silo attached, a two-story brick horse barn and frame chicken houses with separate runways. The barns are in good repair and modern in equipment. They are lighted throughout with electricity. An office is provided in each barn for the inmate in charge and the latter take pride in keeping the barns in good order.

The live stock includes sixteen cows, four horses, twenty-five pigs and about fifty hens.

The Census—The census on the day of inspection is given below:

	Male.	Female.	Total.
Number of inmates .....	265	70	333
Classification of special casts			
Children under two years with mothers .....	0	1	1
*Feeble-minded persons and didots .....	1	0	1
Deaf mutes .....	0	0	0
Blind .....	2	2	4
Epileptics .....	1	0	0

\*Represents low-grade cases only.

Records—The State Board of Charities Record of Inmates is maintained

and was found written to date. The last entry was No. 311, Vol. VII., and was dated April 13, 1915. The State Board of Health Record of Vital Statistics is kept with stubs on file. Since the last inspection, October 8, 1914, twenty-two deaths, sixteen male and six female, have occurred at the institution and there have been no births during the period.

Administration—The non-resident superintendent of the poor visits the institution daily and otherwise when requested. Inmates expressed satisfaction with the provisions made for their comfort.

Religious services are held weekly in the chapel for both Catholic and Protestant. In case of death, relatives, where known, are notified. When burials are made on the county farm no religious services are held and markers are not furnished. A record of burials is kept.

In the matter of the application of Mary Condee to have certain taxes, illegally collected, refunded by the Board of Supervisors of the County of Rensselaer, N. Y.

To the Honorable Board of Supervisors of the County of Rensselaer, N. Y.:

The petition of Mary Condee of the town of Schaghticoke, Rensselaer County, N. Y. respectfully shows to your Honorable Body:

First—That your petitioner now is and has been for thirty years a resident of the said town.

Second—That on or about the year 1885 her husband received a pension from the United States government, by reason of disability received while in the military service during the late rebellion.

Third—That on or about the year 1899 he purchased a house and lot in said town of Schaghticoke, N. Y., and paid therefor entirely with the money received by him as a pensioner.

Fourth—That said property so purchased by him, as aforesaid, has been assessed as for State, Town and County taxes by the Assessors of the town of Schaghticoke, said county, in the year of 1914, and the taxes levied thereon. That he has, in accordance with such assessment and levy of taxes, paid state, town and county taxes in the year of 1914 to the said county of Rensselaer, as shown in the annexed statement, which is made part of this petition amounting in all to the sum of \$8.89. That the tax for the year 1914 as assessed upon said property, amounts to the sum of \$8.89, which has been paid.

Fifth—That your petitioner and his family has resided on said premises ever since he purchased the same as aforesaid.

Sixth—Your petitioner shows that he is informed and believes said assessment and levy and the collection of said taxes as aforesaid, and each and every one of them, were illegal and were made by the assessors of said town of Schaghticoke, N. Y., without any authority or right in law, for the reason that said property is exempt from taxation under the laws of the state of New York.

Wherefore, your petitioner asks that said assessment, and each and every one of them, be set aside as illegal, and that the said amount so paid by him

for taxes upon said property, be refunded to him with legal interest from the date of such payment.

Ayes—Messrs. Cottrell, Curtis, Dahl, Davis, Finnen, Finnerty, Guerin, Hendy, Kapp, Lazdon, Leonard, Lewis, O'Leary, Quinlan, Riordan, Satterlee, Shannon, Sheehan, Sherman, Vosburgh, Warden, Whalen, Chairman Doty—24.

To the Honorable, the Board of Supervisors of Rensselaer County, N. Y.

Gentlemen—The undersigned Committee, appointed by the Chairman of your Honorable Body, pursuant to and under resolution adopted by your Honorable Body at its meeting on May 18, 1915, to investigate and to report to this Board on the question of sufficiency or insufficiency of the Lake View Sanatorium, for the care and treatment of persons suffering from tuberculosis within the county of Rensselaer, hereby report as follows:

That they have given careful consideration to the question and proposition submitted, and in the making of this report have taken into consideration the statements and arguments made and given by Doctor Otto R. Eichel, from the State Board of Health, Dr. Harvey Brown, of the State Charities Aid Association, Dr. W. L. Thompson, Messrs. J. M. O'Hanlon, William D. O'Brien and many others who spoke in favor of further tuberculosis hospital facilities, in this county, at the session of this Board on April 13, last. They have made independent inquiries and investigations about and concerning the present hospital and its facilities, have examined the hospital and its facilities, have talked with the Superintendent and managers of the sanatorium, and others interested as to the arrangements and adaptability of said sanatorium for the purposes for which it was intended, and your said Committee bases its report upon knowledge obtained from all these sources and from all sources from which it could get useful information, and report as follows:

First—That the present Lake View sanatorium is not suitably adapted to the work which it should perform, or was intended to perform, in the matter of taking care of tubercular sufferers in this county; that it is at times crowded beyond capacity; is handicapped by lack of provisions for early cases, particularly children; it is not properly equipped or adapted to give

patients the proper care, which they need, for the reason that it was never intended for the treatment of tuberculosis, it having been originally built as a county hospital building to be erected and maintained in conjunction with the House of Industry, on the county farm and adjacent to the present buildings now thereon, pursuant to provisions of the county law (see act of this Board in the issuance of the bonds, at session on Thursday, April 15, 1909); and having been so built and constructed, thereafter by act of the Board under certain provisions of law, was changed over to and into a tuberculosis hospital, commonly known and described as the Lake View sanatorium. (See resolution, which was introduced by Mr. Sherman and which passed the Board at the session on July 10, 1912, found at page 156 of the 1912 Journal); that the location of the building on the almshouse grounds injures very much the success of the institution as a sanatorium; nor was it build as an independent hospital for tuberculosis purposes; it has no single rooms; no means of classifying patients, as to severity of their disease or their condition, different classes and conditions, being put in one ward together; the toilets in the building are too small; there are no dressing rooms; the dining room is too small; the quarters for nurses and heal officers are inadequate, they being practically obliged to live with the advanced classes of patients; the quarters for the superintendent are inadequate; the type and construction of the building itself, makes it to maintain a modern and up-to-date sanatorium; the kitchen, store room and ice box are inadequate and not well located; ashes necessarily carried from the boiler room past the kitchen cause much dust in the kitchen and basement.

Second—That the sanatorium is built upon very limited and restricted grounds in connection with the alms house; there are no recreation grounds and patients walk about the city, into stores and business places with more or less danger of communicating their disease to others; and in addition to the disadvantage of location, there is no opportunity to enlarge upon the present grounds, the present buildings thus making it adaptable and suitable for the purpose of caring for tubercular patients; and further, as your Committee is informed by the County Attorney, section 49-E of the county law, under which provision the former Rensselaer county hospital was changed to a tuberculosis hospital, was amended in 1913 by adding thereto the following: "No hospital authorized under the provisions of this chapter shall hereafter be located on the grounds of an alms house."

Third—Your Committee, therefore, hereby states and reports to this Board, that your Committee deems it in the public interest to change the location of said Rensselaer county hospital, commonly known as Lake View sanatorium devoted to care of Rensselaer county patients, and acquire a new site by purchase, lease or condemnation and establish the hospital on such new site. That the use of the present hospital or sanatorium should be continued until such new hospital is completed and ready for use and thereafter could or should be restored to its former use as a county hospital building in connection with the alms house or house of industry, or to such use as to this Board seemed best.

by purchase, lease or condemnation, as provided by law, and establish said Lake View sanatorium or Rensselaer County hospital, thereon, for the purpose of caring for Rensselaer county tubercular patients.

Total .....	\$509,410
-------------	-----------

In addition to the foregoing assessment made against your petitioner in the town of Hoosick for the year 1913, the State Board of Tax Commissioners of the state of New York assessed the special franchises of your petitioner within the village of Hoosick Falls in said town, for said year at the sum of \$10,080.

That the value of said property located within the incorporated village of Hoosick Falls as fixed by the Board of Assessors and the State Board of Tax Commissioners, including the special franchise was \$93,380.

That the total valuation of the property situate in the Town of Hoosick as fixed by the Board of Assessors of said town, and the State Board of Tax Commissioners and subject to County, Town and States tax for the year 1913 was \$519,490. That the tax rate for said year, as fixed and determined for the said tax was .011499421. That the Town, County and State tax upon the total assessed valuation at the above rate, correctly figured amount to \$5,973.83. That the collector's fees on said sum at 1 per

cent. amount to \$59.74, making the total tax due, including collector's fees \$6,033.57.

That the Clerk of the Board of Supervisors, for the year 1913, in the statement of taxes submitted to the County Treasurer of the County of Rensselaer, erroneously stated the amount of said Town, County and State tax to be \$4,875.33, including collector's fees. Said sum so stated by the clerk as the proper amount of petitioner's tax was forwarded by the County Treasurer, pursuant to law to the Boston and Maine railroad and paid at that amount, by the railroad. That because of said error the amount paid by the Boston and Maine railroad on account of said County, Town and State tax was \$158.24 less than should have been paid.

That the total valuation of petitioner's property in the town of Hoosick, subject to highway tax for said year, as fixed and determined by the Board of Assessors, was \$426,110. That the rate of highway taxes for that year in said town was .002307. That the amount of highway taxes correctly figured for that year amounted to \$93.04, to which should be added collector's fees of \$9.83, making a total highway tax of \$92.87.

That in figuring said tax the same was erroneously figured upon a valuation of \$509,410, and carried out at a tax of \$1,172.21 to which was added a collector's fee of \$11.73, making a total highway tax charged \$1,183.94, which was \$191.07 too much.

That there is a health and bond tax in said town of Hoosick, and the rate of said tax is .0013966. That said health and bond district is located outside the incorporated village of Hoosick Falls. That the total valuation of your petitioner's property within said health and bond district as fixed by the Board of Assessors for the year 1913 was \$426,110. That the health and bond tax correctly figured at said rate amounts to \$595.11, to which should be added a collector's fees of \$5.96, making a total health and bond tax of \$601.07. That in figuring the said health and bond tax for the year 1913, an error was made and the tax was figured on a valuation of \$509,410, and a total tax of \$718.25 charged to your petitioner, which includes the collector's fees, which said sum was paid by your petitioner.

That this tax as paid was \$117.18 in excess of the correct amount.

That in said Town of Hoosick there is a lighting district known as the North Hoosick Lighting District. That the assessed valuation of your petitioner's property in that lighting district for that year was \$53,537.32, and that the tax rate was .003048. That the tax correctly figured was \$163.18, plus collector's fees of \$1.63; or a total tax of \$164.81. That the bill rendered to your petitioner for said tax was \$164.92, including the collector's fees which was 11 cents more than the correct amount, which sum of \$164.92 was paid by your petitioner.

That there is another lighting district in the Town of Hoosick known as the Hoosick Lighting District. That the valuation of the petitioner's property in said Hoosick Lighting District as fixed by the Board of Assessors was \$74,756.84. That the tax rate for that year was .003883. That the tax correctly figured amounted to \$290.28, to which should be added the collector's fees of \$2.90, making a total tax of \$293.18.

That an erroneous statement of said tax was made to your petitioner and said erroneous statement fixed the tax at \$212.41, including collector's fees. That said statement of taxes and said amount paid was \$80.77 less than it should be.

Your petitioner further says that the total amount paid in said town of

Hoosick on account of taxes so assessed as hereinbefore stated was the sum of \$7,154.85. The total amount that should have been paid for said taxes was \$8,085.49 if the tax was correctly figured and correct bills rendered.

That there is now due and unpaid from the Boston and Maine railroad on account of said taxes the sum of \$930.64.

Your petitioner is informed that the County Treasurer of the county of Rensselaer had a tax sale of your petitioner's property in the town of Hoosick, because of petitioner's failure to pay the taxes hereinbefore mentioned, which failure to pay was due to the fact that an erroneous statement of its taxes was filed with the County Treasurer and rendered your petitioner, and your petitioner's property has been sold for taxes notwithstanding the fact that it paid in full all bills rendered to it, and all taxes due as shown by statements filed with the Treasurer by the Clerk of the Board of Supervisors.

That said property was sold for taxes on the 30th day of September, 1914, and purchased by the county of Rensselaer.

Your petitioner further says that the Board of Assessors of the Town of Schaghticoke did assess all of your petitioner's property for the year 1913, in said town at the sum of \$534,997, which such includes the sum of \$4,560, a special franchise assessment fixed and determined by the State Board of Tax Commissioners.

That the tax rate in said town for said year was .00836922 plus. That the town, county and state taxes correctly figured on said valuation amounted to \$4,477.34, to which should be added the collector's fee of \$44.77, making a total tax of \$4,522.11. That in the statement of taxes filed with the County Treasurer said tax was erroneously figured upon a valuation of \$513,040, which included special franchise, and the tax statement filed fixed the tax, including collector's fees, at \$4,336.78, or the sum of \$185.33 less than the correct amount.

The above tax referred to was town, county and state tax. The highway tax for that year was correctly figured and the correct amount paid, which amount so paid on highway taxes was \$770.35, including collector's fees. That the total amount paid to the County Treasurer on account of taxes for the town of Schaghticoke was \$5,107.13, which sum was the full amount of petitioner's tax in said town as per statements filed with the County Treasurer. That the correct amount of taxes was \$5,292.46. That the amount now due the town of Schaghticoke on account of said taxes is \$185.33.

That the failure to pay the said taxes in full was due to the fact that erroneous statements were filed with the County Treasurer and copies forwarded to the Boston and Maine railroad.

Your petitioner further states that the Boston and Maine railroad paid in full all taxes charged against it as per the statements filed with the County Treasurer by the Clerk of the Board of Supervisors for or on account of taxes due in said town of Schaghticoke for said years of 1913.

Your petitioner is informed and believes that the County Treasurer of the county of Rensselaer sold petitioner's property in the town of Schaghticoke at a tax sale, because of its failure to pay the aforesaid balance of tax and petitioner's property was bid in or purchased at said tax sale by the county of Rensselaer.

Your petitioner further states that in the year 1913, the Board of Assessors of the town of Pittstown did assess the property of your petitioner in said town at the sum of \$289,455. That the State Board of Tax Commissioners fixed and determined the special franchise valuation of your petitioner

in the town of Pittstown for said year at the sum of \$3,760, making a total valuation of all property of your petitioner in the town of Pittstown as fixed and determined by the Board of Assessors of said town and the State Board of Tax Commissioners of the state of New York, the sum of \$293,215.

Your petitioner further states that the tax rate in the town of Pittstown for the year 1913 was .00875715.

Your petitioner further states that the town, county and state taxes upon the valuation so fixed by the Board of Assessors of the Town of Pittstown and the State Board of Tax Commissioners, at the said rate amounts to \$2,-567.73, to which should be added the collectors' fees of \$25.68, making a total tax, including collector's fees of \$2,593.41.

Your petitioner further states that the statement of said taxes filed with the County Treasurer, the Clerk of the Board of Supervisors erroneously stated the valuation of the Boston and Maine railroad in the town of Pittstown to be \$338,890, including special franchise. Your petitioner's tax was based upon the last named valuation and the statement rendered to your petitioner for said tax amounted to \$3,085.98, including the collector's fees, or \$492.57 in excess of the correct amount. Your petitioner paid to the County Treasurer the sum of \$3,085.98, being \$492.57 more than the correct amount.

Your petitioner further states that it paid to the town of Pittstown on account of highway taxes for said year, including collector's fees, the sum of \$455.52.

Your petitioner also alleges that there is a lighting district at Johnsonville in said town of Pittstown. That the assessed valuation of the property of your petitioner in said town in said year was \$27,560. That the tax rate for that year was \$2.00 per thousand. That the total tax of your petitioner for that year was \$55.12, to which should be added the collector's fees of 56c, making a total lighting tax of \$55.68. That there was erroneously charged to your petitioner for said lighting district and paid by your petitioner the sum of \$56.23, which includes the collector's fees. The said last named sum was paid by your petitioner to the County Treasurer of the County of Rensselaer. That said sum so paid was 55 cents in excess of the correct amount of tax.

Your petitioner further states that it paid to the County Treasurer within the time prescribed by law and within the time your petitioner was authorized to pay the same at 1 per cent. all of the above sums hereinbefore mentioned.

That its tax in the Town of Pittstown was overpaid by the sum of \$493.12.

That its tax in the Town of Hoosick was underpaid by the sum of \$933.64.

That its tax in the Town of Schaghticoke was underpaid by the sum of \$185.33.

That the sum of \$493.12 overpaid by your petitioner on its taxes in the Town of Pittstown still remains in the hands of the County Treasurer of the County of Rensselaer.

Your petitioner now prays this Honorable Board to direct and authorize the County Treasurer of the County of Rensselaer to apply in payment of taxes due from your petitioner to the Towns of Schaghticoke and Hoosick, the said sum of \$493.12, so paid to the County Treasurer and now in his hands, and to permit your petitioner to pay to the County Treasurer the sum of \$622.85, in addition thereto, and the total sum, amounting to \$1,115.97, be applied by the County Treasurer in payment of the taxes due from your petitioner to the Town of Hoosick and the Town of Schaghticoke on account of

taxes assessed during the year 1913, and that the County Treasurer be authorized to receive and accept the said sum in full payment of said taxes and without any percentages, charges or expenses being added for advertising said property for sale or otherwise, and that the County Treasurer of the County of Rensselaer be authorized and directed to cancel all certificates of sale of your petitioner's property in the Towns of Hoosick and Schaghticoke so made by the County Treasurer on account of the failure of your petitioner to pay the taxes hereinbefore specified.

Section 60 of the Tax Law of the State of New York reads in part as follows: "The Clerk of each Board of Supervisors shall, within five days after the tax warrant is completed, delivered to the County Treasurer a statement showing the names, valuation of property and the amount of tax of every railroad corporation and telegraph, telephone and electric light line in each tax district in the county."

Section 73 of said Tax Law reads in part as follows: "Any railroad, telegraph, telephone or electric light company may, within thirty days after receipt of notice by the County Treasurer from the Clerk of the Board of Supervisors, pay its tax, with one per centum fees, to the County Treasurer, who shall credit the same with such fees to the collector of the tax district, unless otherwise required by law."

Your petitioner bases its request upon the grounds that it promptly paid all taxes assessed against it for said year as per the statements filed with the County Treasurer by the Clerk of the Board of Supervisors; and that the failure to pay said taxes when due was not the fault of your petitioner; that the failure to pay was due to errors contained in the statements of taxes filed with the County Treasurer.

By Supervisor Leonard:

Whereas, it appears through the petition of Hiram L. Rich, agent of the Boston and Maine Railroad, which said petition bears date July 14, 1913, and was verified on said date and was presented to this board at its meeting of July 14, 1915. That in the matter of taxation of said railroad for the year 1913, certain errors were made, the same being set forth in said petition, to which reference is hereby made; now, therefore be it

Resolved, That the County Treasurer of Rensselaer county be, and he is, hereby authorized and directed to refund to said Boston and Maine Railroad the sum of \$930.64 being the amount of overpaid tax by the said railroad to the town of Hoosick for the year 1913.

Resolved, That said County Treasurer is hereby authorized and directed to cancel the 1914 tax sale of Boston and Maine Railroad property in the town of Schaghticoke on receipt and payment by said railroad to said County Treasurer of the sum of \$185.33; and be it further

Ayes—Messrs. Alderman, Baxter, Bennett, Cipperly, Cottrell, Curtis, Dahl, Davis, Flinnerty, Guerin, Hendy, Kapp, Lewis, Mason, O'Leary, Quinlan, Riordan, Satterlee, Shannon, Vosburgh, Warden, Whalen, Chairman Doty—23.

**Supervisor Satterlee presented the following:**

To the Honorable, the Board of Supervisors of Rensselaer County, N. Y.:

The petition of Henry R. Satterlee, Supervisor of the town of Berlin, Rensselaer County, N. Y., respectfully shows that there are within the limits of the aforesaid town fifty-one bridges, used for common travel, ranging from a span of five feet to forty feet; that during the past week there were two heavy and serious washouts, each of which seriously damaged the bridges, which span the streams in which these washouts occurred; that in one case the abutments were undermined and the bridge washed from its foundation down the stream; that in another case the abutment was washed out and the bridge was closed and the town has built a temporary detour; that in one of said cases it will be absolutely necessary to build a new bridge, and it may be necessary to build a new bridge in the other case. This question is not fully decided. That under normal conditions the expense of maintaining the bridges said town is burdensome and that on account of the building of one new bridge and the possible building of two, an unusually heavy burden is put upon said town in the matter of the care of the bridges; that in view of the foregoing facts, your petitioner respectfully petitions your Honorable Body for aid in behalf of said town, to the amount of \$600.00, pursuant to the power conferred by Section 63 of the Consolidated Laws. Dated At. Berlin, N. Y., July 15, 1915.

HENRY R. SATTERLEE,  
Petitioner.

**Unanimous consent being given the resolution was adopted by the following vote:**

Ayes—Messrs. Alderman, Baxter, Bennett, Cipperly, Cottrell, Curtis, Dahl, Davis, Dodds, Finnerty, Guerin, Hendy, Kapp, Lazdon, Leonard, Lewis, Mason, O'Leary, Quinlan, Riordan, Satterlee, Shannon, Sherman, Vosburgh, Warden, Whalen, Chairman Doty—27.

**Supervisor Satterlee presented the following:**

Whereas, It appears that the town of Berlin is unreasonably burdened by its expense for construction and repair of its bridges, now

Therefore, pursuant to Section 63 of the County Law, constituting Chapter 11 of the Consolidated Law, be it

Resolved, That the sum of six hundred (\$600.00) dollars be levied, assessed and collected against the taxable property of the County of Rensselaer, this year, and the sum so raised by the county be paid over to the town of Berlin to aid in defraying the expense of the cost and repair of its bridges.

**Adopted by following vote:**

Ayes—Messrs. Alderman, Baxter, Bennett, Cipperly, Cottrell, Curtis, Dahl, Davis, Dodds, Finnerty, Guerin, Hendy, Kapp, Lazdon, Leonard, Lewis, Mason, O'Leary, Quinlan, Riordan, Satterlee, Shannon, Sherman, Vosburgh, Warden, Whalen, Chairman Doty—27.

The following communication was received and ordered printed in the minutes:

A resolution adopted by the Common Council of the City of Troy, N. Y., at a regular meeting of said Common Council, held on the 17th day of December, 1914.

Whereas, The parcel of land known as north side of Hoosick street, in the Fourteenth ward of the city of Troy, formerly belonged to Barbara Film and was assessed for the sum of four thousand dollars to her, said assessment being shown on page 36 of the Fourteenth ward tax books for the year of 1914; and

Whereas, Said property prior to the closing of the tax books for the year of 1914, had been wholly subdivided into lots and which are known as Woodrow court, which lands were assessed against the owners thereof, and appear at page 54 of the 1914 tax books of the Fourteenth ward; and

Whereas, Notwithstanding which subdivision of said parcel the assessment thereof was continued for the year of 1914 against the said Barbara Film at page 36 of the tax books,

Resolved, That the Comptroller, City Treasurer, and all other proper officers be, and they are, hereby authorized and directed to strike from their respective books said assessment against said parcel, appearing on said page 36 of the Fourteenth ward tax book for the year 1914.

JOHN P. McNAMEE,  
Clerk.

I hereby approve the foregoing resolution passed by the Common Council of Troy, N. Y.

Dated, December 31, 1914.

CORNELIUS F. BURNS,  
Mayor of the City of Troy.

I, John P. McNamee, City Clerk and Clerk to the Common Council of the City of Troy, N. Y., do hereby certify that the foregoing is a true and correct copy of the foregoing resolution passed by the Common Council of the city of Troy, the original of which is now on file in my office.

JOHN P. McNAMEE,  
City Clerk.

To the Honorable, the Board of Supervisors of Rensselaer County:

The petition of Barbara A. Film respectfully shows.

That the assessors of the city of Troy assessed her for four acres on the north side of Hoosick street in the city of Troy, and also assessed the same land as individual lots 4 fronting on Hoosick street and the balance on Woodrow court.

That at the meeting of the Common Council held December 17, 1914, the Common Council cancelled the plot assessment as to city taxes; that the taxes have been paid on all the individual lots as assessed, except three, and that your petitioner is not now the owner of said three lots.

Your petitioner therefore requests that said plot assessment be cancelled of record, as it appears on page 36 of the tax book of the Fourteenth ward for the years 1914 for \$26.85

BARBARA A. FILM,  
By H. P. THOMPSON,

(Agent.

State of New York, Rensselaer County, ss.:

H. P. Thompson being duly sworn deposes and says that the foregoing petition is true and that such verification is made by him as Barbara A. Film is absent from the city and the Board of Supervisors is about to adjourn and the property will be sold for taxes before there is another meeting of said board.

THOMAS GALVIN,  
Notary Public, Rensselaer County N. Y.

**By Supervisor Shannon:**

Resolved, That the County Treasurer be, and he is, hereby ordered on the ground of double assessment to cancel and strike from the record the assessment for \$26.85 levied against Barbara A. Film found in tax book of Fourteenth ward at page 36 for 1914.

#### THE PRISON ASSOCIATION OF NEW YORK.

August 6th, 1915.

Dear Sir:—Subsequent to my recent inspection of your county jail, I am sending you herewith a copy of my report.

The Prison Association is empowered and duty bound by law to inspect the correctional institutions in this state, and report the conditions found in each, annually, to the Legislature of the State of New York.

These reports constitute an official document of the Senate of the State of New York.

Very truly yours,

E. R. CASS,

Assistant secretary.

Rensselaer County jail, Troy, inspected June 9, 1915, 2:20 to 4:50 P. M., by E. R. Cass.

The jail is under the supervision of the sheriff, W. P. Powers. The jail staff is now fixed by statute and consists of the following:

- 2 jailers.
- 2 janitors (who act as keepers).
- 2 firemen
- 1 male cook.
- 1 night watchman.
- 1 matron.

2 process servers (one of these is employed at the sheriff's office in the jail, the other supervises the men at work in the workshop).

During the day there are on duty two janitors, two jailers, a matron, one fireman and one cook and both process servers. At night a watchman, one fireman and one jailer. It was stated that the matron is on duty until the final lockup of the female prisoners at night. This is about nine o'clock. During the night the watchman must record his visits every twenty minutes to the different divisions on each floor, by means of a key and box arrangement on the side wall. The hour and minute of the visit is recorded on a large paper dial set in a clock in the sheriff's main office. An examination of the dials showed that the rounds are made regularly and that the sheriff evidently makes a personal inspection of them every morning.

Although the female prisoners are locked in their cells and there is a curtain in front of each cell it is necessary for the night watchman to enter the female section and pass along the corridors in front of the cells. Because there is no matron on duty this man must work under conditions which might at some time make it necessary for him to answer embarrassing allegations. It is not intended to question the character of the night watchman in the least, but he is open to unnecessary dangers which should be obviated.

The total population at the time of the inspection was 57 prisoners classified as follows:

Adult males awaiting trial .....	7
Adult males held for grand jury .....	3
Adult males serving sentence .....	3
Minor males awaiting sentence .....	1
Minor males awaiting trial .....	1
Adult females held for grand jury .....	1
Adult females serving sentence .....	6

Since the first of January the maximum number serving sentence has been seventy. It is estimated that the average number serving sentence is about sixty. The periods of sentence range from ten to thirty days.

The general cleanliness of both wings of each floor of the jail was satisfactory.

The cellblock in both wings of the first floor has been painted a cream color, with gray trimmings. This makes a decided improvement in both wings. Because of the painting the appearance of the interior of both wings of the first floor is far superior to that on the second and third floors. The change on the first floor emphasizes more the need of painting the steel work on the other floors.

Unfortunately, the sheriff finds that he is without funds to continue this commendable work.

In the basement and kitchen the equipment was satisfactorily clean, also the laundry, messhall and the storeroom. The opening of a mess hall in the basement in which all the prisoners, excepting the women, take their meals, is a highly satisfactory addition to the jail equipment. It was stated that the plan is working well and because of it the task of keeping the interior of the cells clean is greatly facilitated.

At the time of the inspection there were a number of prisoners in the jail who had been victims of the use of narcotics. It was evident that precautions had been taken to segregate these prisoners on one side of a cell block. It was stated by a guard and the prisoners that when they first came to the jail they were immediately placed under the observation and care of a physician and were also given a special diet.

Conversation with many of the prisoners in different parts of the jail did not bring forth any complaints relative to the quantity or quality of the food and the treatment accorded them by the sheriff.

At the time of the inspection the following number of prisoners were assigned to some kind of work about the jail:

- 4 painting.
- 3 in the kitchen.
- 3 in the messhall.
- 2 in the laundry.
- 1 sawing wood.
- 3 corridor men.
- 1 janitor for the workshop.
- 1 waiter for officers' table.
- 2 working at the looms.
- 1 yard man.

The number serving sentence on the date of inspection was considerably below the usual number. Even with this small population the number of prisoners assigned to work is very small. In other words, the problem of deplorable idleness still confronts the Board of Supervisors of Rensselaer county. This condition of idleness has existed for some time. It is unfortunate that the Board of Supervisors does not endeavor to obviate the conditions. In behalf of the taxpayers, the prisoners and the peace of the community, it is a legitimate function of the Board to remedy to a satisfactory degree this evil.

The looms were, under the previous administration, a failure, and the present sheriff is inclined to have the same opinion. In previous reports of this association it has been shown that ten looms will not supply a suitable amount of employment for the number of prisoners serving sentence. The industry has been a financial load to the county and in many ways a farce. At the time of the inspection one man was engaged in supervising two men at work. This has been practically the same situation at the time of previous inspections. At the time of previous inspections all the looms were not in operation because some parts were at Clinton prison for adjustment. At the time of this inspection it was stated that there was an inadequate supply of dyed yarn available. And so it happens that one thing after another helps to make this for most industry more of a failure. It has been pointed out in previous inspections that under Section 93 of the County Laws, the Board of Supervisors has jurisdiction over the employment of jail prisoners. The present conditions deserve their attention. It cannot

be said that the spirit of apparent indifference will necessarily save money for the county. Surely the continuance of the looms, unless some new arrangements can be made, will increase the financial burden which that industry places upon the county. There are several ways open for the solution of the abnormal and unjust character of the daily routine which exists among the prisoners serving sentence.

1. The employment of the prisoners on the county poorhouse farm.
2. The installation of an industry that can be made profitable.
3. Highway work.

#### **Employment of the Prisoners on the County Poorhouse Farm.**

This plan is successfully operated in Tioga county practically all the year round. During the spring, summer and early part of the fall the prisoners are engaged in farm work and during the winter in general repair and improvement work. Precautions, however, must be taken to keep the prisoners separated from the inmates of the poorhouse.

#### **The Installation of an Industry That Can Be Made Profitable.**

Because of recent legislation, arrangements can be made for the manufacturing of articles in the jails which can be distributed to other institutions throughout the state. In other words, there is a possibility of setting up in the jails industries which can be made to help the industries of the State Prison Department. A plan of this kind would have to be worked out with the Prison Department and the Prison Commission. There is little doubt but that it can be made practical, because there are always demands for some products which the prison industries cannot meet.

#### **Highway Work.**

It is a fact that there are many miles of highway in Rensselaer county that are badly in need of repair and improvement. The natural facilities for undertaking this work are good. In the towns of Sand Lake, Nassau, Stephentown, Petersburg and Brunswick there is much field stone, as well as old stone walls and many quarries. All of these sources, one or more of which are available in any of the above mentioned towns, will supply sufficient stone to carry on the work. The town of Berlin is practically without improved roads. It would not be well to establish a central quarry, because all of the towns are justified in expecting some use of the jail labor. A central quarry would add to the cost of transportation and in some instances make the work too expensive. It will be necessary in conducting this work to establish camps outside of various towns in which the work is going on. This is successfully being done in Onondaga county. The opinion of officials of the State Highway Commission and various county superintendents of highways is that the criticism relative to jail labor injuring free labor is too seriously considered. A recent conference with a representative of a labor organization affiliated with the American Federation of Labor disclosed that labor organizations are not hostile to the utilization of convict labor at highway work.

Despite the fact that industrial conditions throughout the country are bad, it behooves the Board of Supervisors at this time in the interests of the taxpayers and for the purpose of establishing an intelligent jail system, to enter upon the solution of the problem of idleness existing among the sentenced prisoners at the jail. A committee should be appointed to confer with the officials of the Prison Commission, the Prison Department and the county superintendent of highways, the superintendent of the poorhouse and the sheriff, in order that some definite action can be taken.

### Recommendations.

1. A special appropriation should be allowed to the sheriff so that he can continue the work of painting the steel work of the second and third floors. Members of the Board should visit the jail and see what a great difference there is between the parts of the first floor that have been painted and those on the second and third floors that have not.

2. There should be a regular system for giving opportunity to the prisoners for exercise in the jail yard. There is sufficient help attached to the jail staff to make it possible to allow certain days for the different members of the population. Some of the prisoners are now granted permission to exercise in the yard, but this opportunity should be given to all of the prisoners. The yard was built for this purpose and should be so used.

3. Heavy steel wire screens should be placed on the windows in the basement so that it will not be easy to pass contraband articles into the jail.

4. Other arrangements should be made so that the night watchman will not have to enter the female department. The present matron's hours shall have to be changed or a night matron engaged.

### Progress Made.

1. The jail staff is now fixed by statute.

2. The cement flooring on the second and third floors has been repaired. The need for this was pointed out in a previous report.

3. The attic sections in the north and south wings have been cleaned. This was also recommended in a previous report.

4. The messhall in the basement is completed.

5. The bedding, after being sufficiently aired, is now folded and placed at one end of the bed. Suggestions to this effect were made in a previous report.

6. Prisoners now receive three meals a day. This was asked for in previous reports.

7. Both sections of the first floor have been painted.

We, the undersigned members of Melrose Grange, Johnsonville Grange and Pittstown Grange, or a resident of Rensselaer County, petition your Honorable Body to take immediate action in the matter of coating or covering with gravel or other substance the road recently improved from Melrose to the City of Troy limit, known as the Melrose and Speigletown road. The cause for this request is such that hardly a day passes without horses falling while traveling over said road, and whereas it is the season of the year when farmers are about to market their produce and we consider the road not safe for dumb animals to travel over, owing to its smooth and icy surface.

#### RENSSELAER COUNTY BOARD OF CHILD WELFARE.

Troy, N. Y., Oct. 9, 1915.

Mr. Job Doty,

Melrose, N. Y.

Dear Sir:

The Board of Child Welfare, in the one month since its organization, on the 2d day of September, 1915, has received applications from widows claiming to be dependent, affecting over 350 children.

These applications have not yet been passed upon by the Board, and it may be assumed that some few of them, at least, do not come within the scope of the law. But the number of applications, as well as the number of children for whom relief is asked, is so great that the Board feels that in fairness to the Board of Supervisors, who, at their next meeting will be asked to provide an appropriation for the care of these dependent children, should now be made acquainted with the conditions that confront the Board of Child Welfare, and thus give the Members of the Board of Supervisors, in advance of the formal making of the request for an appropriation, an opportunity to

become familiar with the conditions as they exist and are being presented to the Board of Child Welfare.

The large number of applications, and as well the number of children for whom relief is asked, has impressed the Board with the idea that the appropriation necessary to properly carry on the work which it is appointed to do, will be greatly in excess of what was at first anticipated, and, therefore, might, in the judgment of the Board, when the request is made, be thought by the Board of Supervisors to be greater than would be required to meet the obligations for which the Board of Child Welfare was created, and to this end have thought it wise to give such information as they now have to each member of the Board of Supervisors, that he may acquaint himself with the needs of those seeking aid and be cognizant of the necessity of a substantial appropriation.

To the end that you may have an opportunity to give this matter your earnest attention, the Board of Child Welfare has directed me to furnish you with the above information.

Very respectfully yours,

MARY F. COLTON,  
Secretary.

The following communication was received and ordered printed in the minutes.

By Mr. Lazdon—

Whereas, It appears that on account of the complex and complicated method of voting in the country towns of this county, where machines are not in use, an extra day is necessary and is needed for the purpose of making out the election returns and certifying to the same, necessitating careful attention, requiring inspectors, poll clerks and ballot clerks in the different respective districts throughout the county to give much more time to said matters than formerly was necessary; now, therefore, be it

Resolved, That instead of the sum of \$5.00 heretofore paid for such services the sum of \$10 be paid in each case for such services until the further action of this Board, and be it further

Resolved, That an additional intent and purpose of this resolution is that the Board of Canvassers may feel and be at liberty to call upon and request any official affected by this resolution to come before it, the Board of Canvassers, for the purpose of answering any questions or correcting any returns, which said Board may desire to ask freely and without the feeling of any obligations to such person, therefore, in a pecuniary or any other manner.

Fourth--That said property so purchased by him, as aforesaid, has been assessed as for State, Town and County Taxes by the Assessors of the town of Stephentown, said county, in the year of 1914, and the taxes levied thereon. That he has, in accordance with such assessment and levy of taxes, paid state, town and county taxes in the year of 1914, to the said county of Rensselaer, as shown in the annexed statement, which is made part of this petition, amounting in all to the sum of \$5.61. That the tax for the year 1914 as assessed upon said property, amounts to the sum of \$5.61, which has been paid.

Mr. Finnerty, Chairman of Good Roads Committee, reports favorably upon the adoption of the Resolutions introduced by Mr. Davis as appears on pages 278, 279 and 280 of the minutes of October 13, 1915, and moves the adoption of same

The Committee heretofore appointed by the Chairman of this Board for the purpose of locating and fixing upon a site for a hospital to be erected by this County for the benefit of tubercular sufferers and for consideration of such matters in connection therewith as were entrusted to it, hereby reports to this Board that it has given very careful consideration to the matter for which it was selected and appointed and has determined that the property and premises and farm lands, etc., in the Town of North Greenbush, as described in the option by Edward J. and Mary Walsh to the County for \$5,50 and in the option of June 5th, 1915, by Isaac Film to the County to Palmer C. Ricketts and W. Leland Thompson for \$6,500, are most advantageous, and suitably adapted and located for such site.

Your Committee further reports that the before mentioned lands of Film and Walsh have been regularly approved, as required by law, by the State Board of Health of the State of New York, as a suitable and proper location for such Tubercular Hospital, and such location has been approved by the Health Officer of the Town of North Greenbush and by the State Commissioner of Health, as required by law. Your Committee further reports that it has taken up the matter with said State Board, of the nature and character of the buildings to be erected on said site, for the purposes aforesaid, and that while your Committee, on the ground of what it believed to be economy, favored the hotel or block type of construction of said hospital, the State Board of Health, under the authority conferred upon it by law, has informed your Committee that it would not approve such manner of construction, and that it would approve only the manner of construction of such hospital buildings and plant commonly known as the cottage or group type of construction, location and arrangement of buildings. Therefore your Committee begs leave to report, such hospital being necessary for the County and its tubercular sufferers, that the cottage or group type of plan and arrangement of buildings, should be adopted, that the County may have the necessary hospital.

To the Honorable, the Board of Supervisors of Rensselaer County, N. Y.  
Gentlemen:—

Your committee for framing resolutions concerning the death of Walter A. Wood, Jr., begs leave to submit the following:

Whereas, It has leased Almighty God to take from our midst a former member of and a former Chairman of this Board, now therefore be it

Resolved, That this Board hereby makes public expression of its appreciation of the upright, honorable and sterling qualities of Mr. Walter A. Wood, Jr. A man who, though born to wealth, such that he could, if he desired, devote his life to personal pleasures, preferred to devote the same to and for the benefit of his friends, neighbors, fellow townsmen and citizens of his county. Highly educated, a graduate of Yale University, he returns to Hoosick Falls, the village of his birth, and enters upon improvements and betterments for his townspeople, serving as a member of the Board of Trustees of Hoosick Falls, Vice President of the First National Bank, Director in the Wood Company and the Noble & Wood Machine Co., the great enterprises of his home town, a member of the National Guard of the State of New York, and a Veteran of the Spanish-American war, serving throughout the war as First Lieutenant in Company M of the Second Regiment; high in the rites of Masonry and similar bodies and councils devoted to the betterment of their fellow men. He became a member of the State Senate on the 1st day of January, 1915, in which body, on account of his ability and knowledge of public affairs and of those things useful and necessary for the improvement and betterment of the condition of the people of the state, he gave great promise. He was Chairman of the Conservation Committee, a member of the Committees on Internal Affairs, Public Health and Military Affairs, in which last, on account of his special knowledge thereof, he took particular and great interest. A man who, however great his other interests, never forgot his church, and continued one of its most zealous and earnest workers to the time of his death. His friends were legion and his friendships lasting. In his death the people of this county and the people of the state have lost an able and efficient public servant, whose motive and purpose ever was the betterment of his fellow citizens; and this body in behalf of itself and in its representative capacity, extends its deepest sympathy to the widow, children, relatives and friends of said Walter A. Wood, Jr., deceased.

It is the sentiment of this committee that this resolution should be adopted, spread upon the minutes of this Board and an engrossed copy sent to the widow of Walter A. Wood, Jr.

The following communication was received and ordered printed in the minutes:

Troy, N. Y., November 18, 1915.

To the Honorable, the Board of Supervisors.

Job Doty, Chairman, care Court House, Troy, N. Y.

Gentlemen:—

On behalf of the Citizens' New Sanatorium Committee, composed of representatives formally appointed by forty-six (46) organizations, including Labor Unions, Granges, Commercial bodies, Church, Civic and Social Welfare Associations, I write to urge your Honorable Body to take the additional steps necessary for the establishment of the county tuberculosis sanatorium.

The newspapers report that there is a possibility that this present Board of Supervisors may take no further action about the proposition and leave it for the disposal of the incoming Board. That would be deplored by the many organizations and citizens who are keenly interested in the building of the new sanatorium and who have advocated the proposition at hearings before your Board and elsewhere.

The record of your Board on this proposition thus far is well worthy of commendation. It took up the matter just about a year ago, appointing a Committee to inquire into the need for a new sanatorium. In April, your Committee reported that it would be feasible and practicable to build such an institution. At the July session, your Board voted to go ahead with the proposition and appointed a Committee to select a site. After a diligent search, a site was selected which has met with the approval of the whole Board, of the Board of Managers of the present sanatorium, and at a hearing given by the State Commissioner of Health and the Town Health Officer, as required by law, those two officials approved the site.

The logical and desirable thing to do now is to go ahead. Your Board is the one to give the people the assurance that the hospital is going to be built. It is thoroughly posted on the question and in the position to take wise action.

To fail to go ahead and leave the whole matter to the incoming Board would mean considerable delay and a possible tie-up of the whole proposition. Delay in this case would be an extremely serious matter to the many unfortunates afflicted with this terrible disease. It would mean that many cases would unnecessarily become infected and would prolong a lot of misery, sorrow and suffering that could be avoided.

As Chairman of the Citizens' New Sanatorium Committee, and on its behalf and that of its many co-operating societies, and on behalf of the many who are suffering from this dread disease and unable to come before your Board in person to plead for help, I earnestly request and urge your Honorable Board to go ahead. Your Board took this matter up. It has done well with it. May it continue the work so well begun and take it to its successful

necessary to assure the people of this county that the sanatorium will actually be built! I am,

Yours very truly,

JOHN M. O'HANLON.

The following petition and resolution was received and ordered printed in the minutes and referred to Committee on Finance:

THE MOHAWK AND HUDSON RIVER HUMANE SOCIETY, TROY, N. Y.

November 23, 1915.

To the Honorable Board of Supervisors,

County of Rensselaer, State of New York.

Sirs:—

The Mohawk and Hudson River Humane Society respectfully petitions your Honorable Board to renew the appropriation of twenty-five hundred dollars (\$2,500) which has been granted to the society for the past two years by County of Rensselaer, under the provisions of Chapters 545 and 663 of the Laws of 1911 of the State of New York. Chapter 545 is entitled "An act to amend the County Law, in relation to providing for the relief of societies for the prevention of cruelty to children;" Chapter 663 is entitled "An act to amend the County Law, in relation to providing for the relief of societies for the prevention of cruelty to animals." These acts are identical in wording with the exception that one applies to children and the other applies to animals.

The acts cited provide that the Supervisors of any County in the State of New York in which there is a Society for the Prevention of Cruelty to Children, for the Prevention of Cruelty to Animals, may, from time to time, appropriate and pay for the support and maintenance of such societies, from county funds available therefore, such sums as it may deem proper, and may raise moneys for such purpose by a tax on real and personal property within the county. It is further provided that the moneys thus applied shall be paid to the Board of Directors of such society and by it expended for corporate purposes. The resolution passed by your Honorable Board making the appropriation above referred to provided that the society should make a report to you of the disposition made of said fund. In accordance with this resolution, we have the honor to make the following report:

There was paid to the General Superintendent, who is the Probation Officer of the Rensselaer County Court and of the Police Court in the City of Troy and who also cares for the probation work in various justices courts throughout the County, the sum of \$200.00; salaries for matron, assistant matron, housekeeper and janitor of children's shelter, \$951.36; provisions, \$619.82; supplies, \$106.98, insurance, \$160.51; telephone, \$57.47; ice, \$22.57; gas and electric light, \$115.39; coal (part of coal bill), \$271.90, making a total of \$2,500. The total shelter expenses from October 1, 1914, to October 1, 1915, amounted to \$5,314.27 and this amount does not include any part of the regular salaries of the General Superintendent, Inspector and stenographer, all of whom devote more or less of their time in connection with shelter work.

During the year ending October 1, 1915, there was received at the society's shelter in the City of Troy 341 children for a total of 2,980 days. The society's shelter has been open night and day for the reception of all neglected, dependent and delinquent children requiring temporary care from any part of Rensselaer County.

From October 1, 1914, to October 1, 1915, the society's officers received on probation from the various courts in Rensselaer County 10 adults and 78 children and there were continued on probation from the previous year 6 adults and 31 children, making a total of 125 adults and children under the oversight and supervision of our officers during this period. We venture to believe that the care of probation work by the officers of this society has saved the taxpayers of Rensselaer County thousands of dollars on account of the economy of the present system, and thousands of dollars because of the reforms among the delinquents which have resulted.

It should be noted that while emphasis has been laid on the probation and shelter work performed by the officers of this society in Rensselaer County, the statutes which enable an appropriation to be made, grant the relief on the basis of the general humane work which may be done and which has not yet been here specified. It should be noted that the society in addition to caring for probation work and sheltering children in this county, at a cost which is not nearly met by any relief granted to the society by the County, has also performed the work of an anti-cruelty society in providing for child and animal protection in Rensselaer County. As the laws of 1911 make provision in Chapters 545 and 663 that appropriations may be granted to anti-cruelty societies for their general work, this society respectfully represents to your Honorable Board that this aspect of the question should be borne in mind in considering this petition for financial relief.

The general work of the Humane Society in the County of Rensselaer has involved a total of 1,233 cases affecting children and a total of 876 cases affecting animals. A very fully detailed statement of this general work will be found in the annual report of the society. On account of its extreme length and large number of details, we will not attempt to reproduce the same here. As the work of this society in every department is constantly growing, necessitating increased expense and as the society is performing a large amount of public service, for which it receives no compensation from city or county, it very respectfully renews its petition of a year ago for a grant of \$2,500 to enable it to continue the services cited, without financial embarrassment and loss.

As was stated in our petition of a year ago, the Mohawk and Hudson River Humane Society is short-handed in doing its work, at the present time, and has been for some time past. We need more officers and we need funds to cover transportation costs in sending these officers throughout the county. We greatly need to extend and improve our shelter for children. These needs are urgent, but we are hampered for lack of funds. The society, therefore, respectfully petitions the Honorable Board of Supervisors of Rensselaer County to grant the assistance indicated, which the society firmly believes is for the best interests of the county and the public good.

Respectfully yours,

WILLIAM H. SHIELDS.  
PAUL COOK,  
HENRY S. LUDLOW,  
L. B. CLARK COWEE,  
HARVEY S. McLEOD,  
H. L. BOARDMAN,

Directors from Rensselaer County, Mohawk and Hudson River Humane Society.

By Mr. Riordan:

Rensselaer, N. Y., Nov. 15, 1915.

To the Hon. Chairman and members of the Board of Supervisors of the County of Rensselaer, N. Y.  
Gentlemen:

I, the undersigned have been agrieved to a certain extent and been put a good deal of bother on account of a mistake made by the Rensselaer Board of Assessors in the year 1913.

On Oct 1, 1915, the County Treasurer gave a deed to the Albany syndicate for two lots which belonged to me and have receipts to show where I paid for in the year 1913, for which it was sold, but in looking up the assessors books (Second Ward, City of Rensselaer) I find on page 62 (owners unknown) that in the year 1913 lots 4 and 6 blk F, Hogan street, were assessed twice, once on page—and once on page 62, a mistake made by the City Assessors.

I have since straightened the matter out by paying the Albany Syndicate the amount of \$0 82. for which I most respectfully ask your Honorable body that the above amount be refunded to me.

Yours respectfully,

AUGUST BONACKER.

And the clerk of this board is hereby directed to furnish the necessary treasurer, and the county treasurer is hereby authorized to receive the said treasurer, and the county treasurer is hereby authorized to receive the said taxes as is provided in said law, the distribution of said taxes to be made by this board as soon as the percentage and apportionment is provided.

The following communication was received and ordered printed in the minutes:

Dear Sir:—

The State Tax Commission requests your attention to section 50 of the tax law, which specifically prescribes the way the board of supervisors shall equalize values of real property in the several tax districts of the county.

To aid in this work there is enclosed a copy of the 1915 state equalization table. Your county equalization table for the present year should be prepared in the same form as the 1915 state equalization table. If your board will assume that this is an equalization table for your county, and that each county named in the table represents a tax district in your county, the following explanations will enable the board to perform its work in accordance

with the provisions of section 50. In the first column the name of each tax district in the county is to be entered in alphabetical order. In the second column is to be entered the total assessed value of real property in each tax district, as shown upon the assessment roll thereof. In the third column is to be entered the rate of equalization adopted by the board for each tax district. The amounts to be entered in the fourth column are ascertained by dividing the total assessed value in each tax district (column 2) by the rate of equalization (column 3) adopted by the board for that tax district. The average rate of equalization for the county is ascertained by dividing the total of column 2 by the total of column 4. The equalized value of property in each tax district (column 7) is ascertained by multiplying the full value of property in such district (column 4) by the average rate of equalization for the county. The totals of columns 2 and 7 must be exactly the same. If the equalized value of property in a tax district (column 7) be less than its assessed value (column 2) the difference is the amount deducted from the assessed value and is entered in column 5. If the equalized value (column 7) be greater than the assessed value (column 2) the difference is the amount added to the assessed value and is entered in column 6. The totals of columns 5 and 6 must be exactly the same. Column 10 is the sum of columns 8 and 9 and column 11 is the sum of columns 7 and 10. From column 11 is determined the proportion of general taxes which shall be raised in each tax district throughout the county. Each tax district must raise the proportionate part of the general tax which the total value of real and personal property in the tax district (column 11) bears to the total of column 11.

To illustrate, according to the table enclosed, there must be apportioned to the first tax district

149,759,770

of the general tax

12,070,420,887

to the second tax district

28,344,357

of the general tax

12,070,480,887

to the third tax district

624,896,199

of the general tax

12,070,480,887

and so on to the end of the column.

The Court of Appeals has decided that, in apportioning the general tax among the several tax districts of the county, the assessed value of shares of stock of state and national banks must be included (188 N. Y. 1)

The determination of the rate of equalization for each tax district in the county is the most important part of the county equalization. The rate of equalization is the ratio or percentage which the assessed value of real property in the tax district bears the full value of such property. Section 50 of the tax law makes it the duty of the board to determine this ratio by proper inquiry and investigation. The conclusion reached by the board, therefore, must be based upon tangible facts and reliable information procured by actual investigations each year of assessed and full values of property in each tax district in the county. Much information regarding real property values may be procured from sales and mortgages recorded in the county clerks' or registers' offices, from reports of appraisers of property of deceased persons and incompetents, from reports of companies and corporations and from appraisals by persons familiar with local property values. Assessors, supervisors and other local officials, as a rule, have knowledge

708 F 10 24 1793 10 24 1793

of property values in their respective towns, and should be called upon to give the board the benefit of such knowledge. Local officials and other persons may be examined thereon under oath. The assessed value of individual parcels is to be found in the assessment roll of the tax district.

Section 176a of the tax law empowers the State Tax Commission to review the equalization fixed by the board of supervisors of any county or other lawfully constituted authority. In conformity with the provisions of this section, it becomes the duty of the commission to direct that your board carefully preserve all records, data and other information which may be used in any way by the board in determining rates of equalization for each of the several tax districts in your county, and that, within five days after the board has adopted the equalization table for the present year, true copies of that table and all such records, data and other information be transmitted to the state tax department. Subject to the means at its disposal, this department will be very glad to give you all the assistance in your power in the equalization work in your county.

I respectfully ask that this communication be presented to your board on the first day of the forthcoming annual session and that its receipt be noted in the minutes of the board. May I also ask that you promptly acknowledge receipt of this communication.

Very truly yours,

Deputy Tax Commissioner.

The following communication was received and ordered printed in the minutes:

To the Honorable Board of Supervisors of Rensselaer County;  
Gentlemen:—

The board of child welfare appointed by Hon. M. A. Tierney, county Judge of Rensselaer county, pursuant to the laws of the state of New York, and by authority of chapter 22c of the said laws of the state enacted April 7th, 1915, and approved by the Governor, humbly petitions your honorable body for an appropriation to carry on the work, as directed by the said law.

The board of child welfare, from the information gathered up to the present time, which is all the possible information they could get, deem it necessary to ask for an appropriation of \$45,000.00 to carry on the work. This appropriation to include the expense of a secretary to the board and an investigator. We ask that the salary of the secretary be fixed at a sum sufficient to pay for one competent to do the work, and to fix the salary of an investigator at an amount sufficient to pay a competent person to do the work. From the information at hand we believe that the amount asked for will be sufficient to carry on the work for the ensuing year.

We can assure your honorable body of the administration of the funds in strict conformity with the law.

W. D. O'BRIEN,

Chairman.

Referred to the Committee on Child Welfare.

of property values in their respective towns, and should be called upon to give the board the benefit of such knowledge. Local officials and other persons may be examined thereon under oath. The assessed value of individual parcels is to be found in the assessment roll of the tax district.

Section 176a of the tax law empowers the State Tax Commission to review the equalization fixed by the board of supervisors of any county or other lawfully constituted authority. In conformity with the provisions of this section, it becomes the duty of the commission to direct that your board carefully preserve all records, data and other information which may be used in any way by the board in determining rates of equalization for each of the several tax districts in your county, and that, within five days after the board has adopted the equalization table for the present year, true copies of that table and all such records, data and other information be transmitted to the state tax department. Subject to the means at its disposal, this department will be very glad to give you all the assistance in your power in the equalization work in your county.

I respectfully ask that this communication be presented to your board on the first day of the forthcoming annual session and that its receipt be noted in the minutes of the board. May I also ask that you promptly acknowledge receipt of this communication.

Very truly yours,

Deputy Tax Commissioner.

To the Honorable Board of Supervisors of Rensselaer County;  
Gentlemen:—

The board of child welfare appointed by Hon. M. A. Tierney, county judge of Rensselaer county, pursuant to the laws of the state of New York, and by authority of chapter 222 of the said laws of the state enacted April 7th, 1915, and approved by the Governor, humbly petitions your honorable body for an appropriation to carry on the work, as directed by the said law.

The board of child welfare, from the information gathered up to the present time, which is all the possible information they could get, deem it necessary to ask for an appropriation of \$45,000.00 to carry on the work. This appropriation to include the expense of a secretary to the board and an investigator. We ask that the salary of the secretary be fixed at a sum sufficient to pay for one competent to do the work, and to fix the salary of an investigator at an amount sufficient to pay a competent person to do the work. From the information at hand we believe that the amount asked for will be sufficient to carry on the work for the ensuing year.

We can assure your honorable body of the administration of the funds in strict conformity with the law.

W. D. O'BRIEN,

Chairman.

Referred to the Committee on Child Welfare.

The following communication was received and ordered printed in the minutes:

To the Honorable Board of Supervisors, Court House, Troy, N. Y.:

Gentlemen:—

As president of the Troy Tuberculosis Relief Committee, the pioneer organization of its kind in this section, I venture to urge your board to continue the substantial progress made during the past twelve months toward the establishment of a new county tuberculosis sanatorium. The committee, which I have the honor to represent, very keenly appreciates the need for a larger and more suitably located institution for the treatment of the tubercular sick. Our visiting nurse and dispensary are overwhelmed with the care and visitation of cases that should have hospital treatment and who would go to an institution that does not have the stigma of poorhouse attached to it. Additional evidence of the need for a new hospital is indicated by the death list. Rensselaer county sustains an average annual loss of 230 lives from tuberculosis—an average of one death every 38 hours, and this from a preventable disease!

A large number of organizations of varied character are genuinely interested in the new sanatorium proposition. This was evidenced last winter and spring by the resolutions and petitions sent to your honorable body in support of the project. These organizations are disturbed at the rumors that have appeared in the press lately to the effect that there is a disposition on the part of some members of the board to leave the whole matter to be decided by the new board that comes into office on January 1st. That would be a pity. It would necessarily cause considerable delay for the new members would want to take time to become posted on the question, and it might serve to hold up the proposition indefinitely. Human lives and the safety of the community are at stake. The county cannot afford to suffer any let-up in the progress thus far made.

Your honorable body is well informed on the question. It has made encouraging progress toward the establishment of the institution. Public sentiment favors this proposition and is looking to your board—the one which has started this enterprise—to take such decisive action as will assure the early building of the sanatorium. I am,

Sincerely yours,

W. LELAND THOMPSON,  
President of the Tuberculosis Relief Committee.

Dr. Frank L. S. Reynolds, Superintendent.

Location—Lakeview Sanitarium occupies a site adjacent to the buildings of the County Alms-house, on the outskirts of the city of Troy and about five minutes' walk from the Albia trolley line.

**The Building**—The building is of red brick, two stories and a basement in height in the central portion, with one story wings extending laterally. Each of these wings terminates in a small solarium. The basement floor contains the hospital kitchen, the dining and sleeping rooms of the male employees, the sterilizing and fumigating rooms, the heating plant and the incinerator.

On the first floor of the building at the right of the entrance, is the administration office. Beyond it are the dining room for patients, the quarters of the Superintendent, and the toilet and lavatory sections for the male wards which occupy the wings. The left wing is used for advanced cases and the right for those more moderately advanced or incipient, but as the former predominates, it is impossible with the present facilities to maintain this desirable segregation. Two rooms on this floor are available for moribund patients.

The second floor contains the dining room and sleeping rooms of the nurses, and the wards for female patients, with toilet and bathing sections similar to those on the floor above and a single room which may be used for emergency purposes.

The building is ill adapted both by location and design for the treatment of tuberculosis, and it is so constructed as to prevent satisfactory alteration. Facilities are lacking for the proper segregation of patients according to age or stage of disease. Children and adults, incipient and advanced cases must live in the same building, occupy the same wards and share the same equipment. In addition to this the male wards which have a normal capacity of thirty-five are seriously overcrowded, as many as forty-five patients being present in them on the day of inspection. This necessitates the use of the porches for dormitory purposes at all times and prevents the desirable reservation of porch space for occupancy by patients during the day.

The enforced housing of the Superintendent, nurses and employees in the same building and in close proximity with number of advanced cases of tuberculosis is injurious from a standpoint of health. The quartering of employees in the basement is particularly objectionable.

The unsuitability of the hospital for its present use has long been recognized and for several months past the Board of Supervisors of Rensselaer county has had under consideration the matter of constructing a new sanatorium on a more favorable location. At a meeting of the Board held on October 14, 1915, a report was presented by the committee on the new hospital which approves the purchase of two adjacent farms in the town of North Greenbush, for the respective sums of \$5,500 and \$6,500 and the erection thereon of buildings of the cottage type. This site has already been approved by the State Board of Health. It is expected that the new institution will have a capacity for at least 120 patients. A former resolution of the Board of Supervisors limits the cost of the hospital to \$150,000.

**Improvements**—Improvements to the equipment and plant during the past year include the following:

1. The installation of a new hot water heater.
2. The enclosing with glass windows of two of the porches.

**Fire Protection**—Although the building is of brick, the interior stairs, floors and porches are of wood and inflammable. The water supply is that of the city of Troy and the City Fire Department responds to calls. A single iron stairway fire escape leads from the wooden porch of the women's ward to the ground. This is reached through a trap door, also of wood. Five

liquid chemical extinguishers, recently re-charged (June, 1915) are distributed throughout the institution, and afford the only interior fire fighting apparatus. Standpipes with hose attached, although needed as a means of protection, are lacking. In the event of fire, while it is probable that the patients could be removed without loss of life, it would be almost impossible with the present equipment to prevent the destruction of the building.

**Working Equipment**—The building is heated by steam and lighted by electricity. City water and sewage facilities are available. The laundry work of the institution is done at the almshouse, and is fumigated before leaving the hospital.

**Hygiene and Sanitation** The interior of the building was clean and in order throughout. Floors are of wood and are cleaned with sweeping compound, and oiled. No dry sweeping is done. Patients' dishes are kept in special pantries and are washed separately, in hot soap and water, but a sterilizing dish washer is needed. Sputum cups and paper handkerchiefs used by the patients are collected twice a day. The cups are carbolyzed, and the inserts and handkerchiefs burned in the basement incinerator. This is much too small for the needs of the institution, but in view of the probable early construction of a new hospital for repairs are to be made to the present equipment.

Toilet and bathing facilities are adequate, the toilet rooms were clean and in order and the plumbing in good condition.

**The Nursing Service**—The resident Superintendent supervises the nursing service. For nurses, three of them graduates, are employed. One nurse is always on duty during the night. Applications for admission to the hospital are made to the Superintendent and each patient is given a complete physical examination, including blood, sputum and urine on admission. Patients are re-examined every three months thereafter. The temperature, pulse and respiration of each patient is taken twice a day and is recorded on the patients' chart. A weekly weight record is also kept. Nourishment in the form of milk and for some cases eggs, is served at ten and at three.

**The Kitchen and Dietary**—The hospital kitchen in the basement is in charge of an experienced cook. Dumb waiters carry the food to the patients' dining room on the first floor. White linen table cloths and paper napkins are used on the tables.

The congested condition of the male wards has previously been noted in this report. Of the patients present on the day of inspection, three were

boys under sixteen years of age. The majority of patients were said to be advanced cases.

Records—The records of the institution are complete and information is readily accessible. Since the opening of the hospital in August, 1910, to October, 1, 1915, 703 patients have been admitted for treatment.

Admissions have been made during the year ending September 30, 1915, as follows:

	Male	Female	Total
Incipient . . . . .	8	0	8
Moderately advanced . . . . .	6	2	8
Advanced . . . . .	78	20	98
Non-tubercular . . . . .	1	6	7
	<hr/> 93	<hr/> 28	<hr/> 121

These statistics show an exceptionally high percentage of advanced cases among the patients admitted to the institution.

Discharges for the year ending September 30, 1915, are classified as follows:

	Male	Female	Total
Arrested . . . . .	7	4	11

Administration—The hospital is supported by an annual appropriation of the Board of Supervisors and by the receipts from paying patients. The amount of the appropriation for the year ending September 30, 1915, was \$20,956.79. Six paying patients were present during the year and the total receipts from this source amounted to \$506.73. County patients pay as they are able up to ten dollars a week. At the time of inspection no paying patients were present.

The Board of Managers meets at the hospital on the first Tuesday of each month.

In Brunswick one piece of road about 100 ft. long was cleaned, oiled and graveled at an expense of about \$15.00. In all the towns the roads are being widened as much as the money will permit. We are also trying to eliminate some of our heavy grades. The large road machines are being used less and more gravel is being placed on the roads. I have been informed by very good authority that there are very few dirt roads in the state any better than ours.

The new bridges built are all of modern construction with a carrying capacity of from 18 to 30 tons.

Chairman Doty named the following Committee to serve as a Committee on the building of the new tuberculosis sanitarium:

New Tuberculosis Hospital Committee—Supervisors Riordan, Hendy, Finerty, Quinlan, Lazdon, Tobin, Mason, Dahl, Lewis, Sherman, Dodds.

Citizens—Thomas Vail, James H. Caldwell, Harry C., Ludlow.

The following resolution was introduced by Mr. Riordan and moved the adoption of the same:

Whereas, The newspapers recently contained articles in connection with the escape of one Von Stedina from the Rensselaer County Jail, in which it was alleged that the Sheriff of this county assented that such escape was due to the fact that the Building and Supply Committee of this Board had failed to provide a safe place for the detention of prisoners; in which statements the Sheriff avoided his own responsibility for the escape of said prisoner and placed the same upon this Board or one of its committees, substantially accusing the Board of Supervisors of being recreant and derelict in the matter, and

Whereas, Stories not at all in harmony with the alleged interviews and statements of the Sheriff are being gossiped throughout the streets of Troy, the man on the street saying that inefficiency of the officers or inadequate jail service may not be the real reason for such escape and many ugly rumors are in circulation concerning the entire matter, and

Whereas, The stigma for the responsibility of such escape should be placed where it properly belongs and upon any and all persons connected or related with the matter to the end that no innocent person should be accused, it is

Resolved, That a Committee of five members of this Board be and hereby is appointed to make a thorough investigation of the charges made by the Sheriff as well also to all matters in connection with the escape of said Von Stedina from the Rensselaer county jail, and also to investigate conditions now existing at said jail as to the inadequacy of the same and the efficiency and honesty of the persons in charge of same and said Committee report back its findings to this Board with all convenient speed or action upon the matter by this Board.

### ASSISTANT DISTRICT ATTORNEY'S OFFICE

Troy, N. Y., December 7, 1915.

To the Honorable Board of Supervisors, Troy, N. Y.

Gentlemen:—

Holding the position of stenographer to the Court of Special Sessions and also assisting in the drawing of indictments and other work in the Assistant District Attorney's office for the past eight years, I respectfully petition your Honorable Board for an increase in salary from \$500.00, the present compensation, to \$720.00 per annum.

Trusting your Honorable Board will give this request due consideration, I am

Very respectfully,

EDNA M. RUTH.

The following communication was received and ordered printed in the minutes and referred to the Finance Committee.

To the Honorable, the Board of Supervisors of Rensselaer County.

Gentlemen:—

Miss Ahern has been in the employ of my office as stenographer for

more than a year and from the date of her appointment her duties have so progressed that I feel she is inadequately paid for the services she has rendered and is now rendering, and I most respectfully recommend to you that her salary be increased from \$550 to \$720 per year, which sum, I feel would be adequate compensation for her work.

Trusting that this will meet with your approval I beg to remain,

Very truly yours,

CHARLES A. ROEMER,

County Superintendent of Highways.

The following petition was received and ordered printed in the minutes and referred the Committee on Erroneous and Omitted Taxes.

IN THE MATTER OF THE APPLICATION OF LLOYD L. CANADAY,  
FOR THE REFUND OF TAXES.

To the Board of Supervisors of Rensselaer County.

Lloyd L. Canaday, being duly sworn, deposes and says he is the petitioner herein and is a son of Jeremiah Canaday, an incompetent person.

That said Jeremiah Canaday is the owner of a farm in the town of Nassau, Rensselaer County, consisting of 185 acres of land. Said Canaday is a veteran of the Civil war and as such receives a pension from the government. That with the pension moneys received therefrom he purchased said farm and resided there for many years with his family. That within the past few years, about the year 1902, said Jeremiah Canaday, whose place of residence had been said farm, was declared an incompetent person and was committed to an institution at Binghamton.

That other than said institution said farm is the only place of residence of said Jeremiah Canaday. That deponent and other members of said incompetent's family now live on said farm.

In all other years since he owned said farm, except in 1912 and 1913 the Assessors exempted said property from taxation, but in 1912 the Assessors of Nassau assessed said property at \$3,000 and caused a tax of \$38.12, in addition to the highway tax, said tax being the regular state, town and county tax, to be levied against said property, and in 1913 the Assessors assessed said property at \$2,800.00 and caused a tax of \$35.00 to be levied against said property.

To prevent a tax title being perfected on September 30, 1914, deponent paid the tax of \$38.12, besides interest, and on July 16, in the same year paid the tax of \$35.00 to prevent further expense to the Jeremiah Canaday estate.

That said tax levy were erroneous and contrary to law because said premises were owned by a veteran of the war and purchased with pension money; that said veteran and his family occupy said premises; that said incompetent as much as he can under his said, condition, but it is his only home.

Whereof, Petitioner prays that he be reimbursed for the money paid by him for said erroneous tax together with interest from the date of said tax, viz: \$38.12 and interest from September 30, 1914, amount, \$40.78; \$35.00 and interest from July 16, 1914, amount, \$37.89.

Dated December 7, 1915.

LLOYD L. CANADAY.

State of New York, County of Rensselaer, ss.:

Lloyd L. Canaday, being duly sworn, deposes and says that he is the

petitioner above named; that he has read the annexed petition and knows the contents thereof, that the same is true to his knowledge, except as to the matters therein stated to be alleged on information and belief and that as to those matters he believes it to be true.

LLOYD L. CANADAY.

The following petition was received and ordered printed in the minutes and referred to Erroneous and Omitted Tax Committee

To the Honorable, the Board of Supervisors of Rensselaer County.

The petition of Charles Moon respectfully states and alleges that during the year 1911 he purchased of and from William Teson a house and lot in Grants Hollow in the Town of Schaghticoke.

That since said year, 1911, unbewnown to your petitioner the Assessors of said town have carried said house and lot and assessed the same as against the said William Teson and also assessed the same as against your petitioner, Charles Moon and wife.

That your petitioner has paid every assessment and each tax upon said property where the same was assessed against him, and now finds that for and account of said assessments to and in the name of said William Teson, the said property has been sold for taxes as follows: September 30, 1913, it was sold for the unpaid state and county taxes for the year 1912, on an assessment in the name of William Teson, to the county of Rensselaer and number of certificate issued upon such sale was 1390.

That for the the year 1912 said property was assessed to said petitioner, Charles Moon twice in two different places in the same book.

That petitioner paid one said assessment of the property, and the property was sold for the other assessment on the 30th day of September, 1914, for the year 1912, and the certificate issued to the county therefor was 1657. On the year, that is to say, for the year 1913 the Assessors changed the Teson assessment over to Charles Moon, and also carried a new assessment in the name of Charles Moon, thus the property was assessed twice.

That in the same way, on the 30th day of September, 1915, for unpaid state and county taxes for the year 1914, said property was sold for taxes and the certificate for such sale, number 1503,, was issued on the sale to the County of Rensselaer. That is to say, the property was assessed twice on the books of 1914 in the name of Charles Moon, one of the assessments being the old Teson assessment changed over to Moon's name, and the 1915 sale for the unpaid 1914 taxes above mentioned is the one which was not paid by your petitioner.

Wherefore, your petitioner prays for the order of this Board ordering and directing the County Treasurer of the County of Rensselaer to cancel and strike from his books and records, and charge the same to the Town of Schaghticoke the said sales for taxes and the said certificates given thereon, as follows, namely: Certificate 1502 of the sale of September 30, 1915, for unpaid taxes of 1914; certificate number 1390 of the sale of September 30, 1913, for unpaid taxes of 1912; certificate No. 1657, sale of September 30, 1914, for unpaid taxes of 1913.

Schaghticoke, N. Y.

CHARLES MOON,  
Petitioner.

CHARLES MOON,

JOB DCTY,

Notary Public, Rensselaer County, N. Y.

By Supervisor Finnen:

Resolved, That the County Treasurer be and he hereby is authorized and directed (in accordance with the prayer of the petition of Charles Moon) to cancel and discharge, from the records of his office, the following tax certificates and the taxes in connection therewith, namely; Certificate No. 1503 of the sale of September 30, 1915; certificate No. 1657 of the sale of September 30, 1914 and the certificate No. 1390 of the sale of September 30, 1913, the amount of the taxes and increase charged against said several certificates to be charged back upon and against the Town of Schaghticoke, in which the property thus erroneously sold for unpaid taxes, was located.

### OFFICE OF SUPERINTENDENT OF WEIGHTS AND MEASURES.

Albany, N. Y., December 7, 1915.

Hon. William C. Waite, Clerk, Board of Supervisors,

Rensselaer County, Troy, N. Y.

Dear Sir:

I trust at this time you will find it convenient to take up with your Board of Supervisors the question of an appropriation sufficient to cover the expenses of the County Sealer to the next state convention, which will be held in the city of Elmira.

It is the intention of the Executive Committee of the Association to devote the three days of the convention to lectures on the different styles and types of weighing devices and the laws governing weights and measures. We will have crowded into these three days more work in actual "Weights and Measures," than it is possible for him to see within his jurisdiction during a full year.

I sincerely trust that each and every Sealer of this state will be at the conference this coming year.

Very truly yours,

JOHN F. FARRELL,  
Superintendent

The following communication was received and ordered printed in the minutes:

RENSSELAER COUNTY DISTRICT ATTORNEY'S OFFICE.

Troy, N. Y., December 8, 1915.

The Clerk of the Board of Supervisors,, Court House, Troy, Y. Y.

Dear Sir:—

By a news item in the morning paper, I learned for the first time that an application had been, or was about to be presented to the Board of Supervisors directing an increase from \$500 to \$720 per year in the salary of what is said to be Clerk and Stenographer to the Assistant District Attorney. There is no such office and I presume reference was made to the position of Stenographer to the Court of Special Sessions, who is appointed by the County Judge and assigned as stenographer to the Assistant District Attorney.

Neither the Assistant District Attorney nor myself was consulted with reference to this proposed increase in salary. This Department has not suggested an increase in the salary of any of its employees and at present I feel that any increases in salaries is unnecessary and unwarranted so far as our work is concerned.

Very respectfully yours,

JOHN P. TAYLOR,  
District Attorney.

The following bill was received and ordered printed in the minutes and laid over under the rules:

COUNTY OF RENSSELAER.

To LOUIS N. MILLIMAN, ARCHITECT, Dr.

For professional services, as Architect, in the matter of making preliminary drawings and studies and colored drawings of a Tubercular Hospital building and plant, based on the Block Type plan of construction, said drawings made pursuant to and under directions of Committee on Lakeview Sanatorium. Said Committee appointed by Chairman of the Board, pursuant to resolution of said Board, regularly adopted on April 15, 1915, and found at page 186 of the minutes of said session. Said drawings based, as to amount of cost, on instructions of and from said Committee, that the cost should not exceed \$150,000.00. For these services I make a charge of 1.2 per cent. of said estimated cost of \$150,000.00, which is the charge allowed and authorized for such services by the New York Society of Architects in their rules and schedule of charges for professional services to this point of development of plans.... \$1,800 00

Subsequent to the making of said drawings, I received information that the said Committee had been informed by the State Department of Health and from the State Commissioner of Health, that the State Commissioner of Health would not approve the proposed block plan or type of construction, if it was carried through to completion. The approval of the plans, by the State Commissioner of Health, for the erection of

a Tubercular Hospital, being required by the law, before the Board of Supervisors has authority to go ahead and construct its plant; this information terminated the usefulness of the proposed block type of building. Thereafter I received instructions and orders from the same said Committee appointed, as before stated, and under powers vested in said Committee, to make other and different plans which the State Commissioner of Health would approve based on the Pavilion Type of buildings, and to cost, not to exceed, \$150,000.00, which I did, and submitted such said plans to the State Department of Health and redrew said plans as ordered by the State Commissioner of Health, and now have preliminary plans in perfected condition and herewith present this bill for professional services for making the said preliminary drawings, for the erection of a Tuberculosis Hospital (Pavilion Type of Hospital) to cost, not to exceed, \$150,000.00.

The charge for services at this point of development beginning, in accordance with the rule of the New York Society of Architects is 1.2 per cent. for preliminary drawings, including consultation services, making the amount due at this point of development of said Pavilion Type of Hospital in accordance with the rule of the New York Society of Architects, upon the said sum of \$150,000 00 of 1.2 per cent. which is..... \$1,800 00

Total . . . . . \$3,600 00

The said amount of 1.2 per cent. of estimated cost, is part payment, and the part payment, now due and requested at this time, of Architect's fees of 6 per cent. on total cost of construction and it applies as part payment on plans and account of such total estimated cost of construction, as buildings progress, leaving a balance of 4.8 per cent. to be paid in accordance with and in the manner and at the time approved and adopted by the New York State Society of Architects.

This charge of 1.2 per cent. on estimated cost is also based on the amount authorized and allowed by the New York Society of Architects, of which I am a member, for professional services of the character herein set forth, up to and at the present point of development of the hospital proposition. .... HARRY A. SHELDON,

Acting Superintendent of the Poor, Rensselaer County, N. Y.

To Harry A. Sheldon, Acting Superintendent of the Poor of Rensselaer  
County State of New York.

Dear Sir:—

I respectfully submit my annual report as Physician and Surgeon of the  
Rensselaer County House of Industry for the year ending October 1, 1915.

Under your constant supervision, and desire to render the best service  
possible for all concerned, that the best work possible might be accom-  
plished, we have been supplied with a sterilizing outfit, operating table, and  
several other appliances together with the installation of electricity. We are  
equipped to do any operations which become necessary in the institution.  
During the past nine months we have done fourteen operations with excel-  
lent results.

We have two faithful nurses who have been untiring in their efforts to  
make the patients comfortable.

The management of the whole institution has been as nearly perfect  
as accommodations would permit.

The supplies have been abundant and of the best quality.

It would be a great benefit to the care of the patients if we had a  
small addition on the male and female sides that might be used for acute,  
infectious diseases.

There have been a great number and variety of cases during the past  
year, a classification of which and the mortality statistics are given below.

The following communication was received and ordered printed in the minutes. Referred to Committee on Erroneous and Omitted Taxes.

1911. Canaday, Lloyd, agt., farm valuation, \$3,500; highway tax, \$14.76; 1912, Canaday, Jeremiah, farm, valuation, \$3,000; highway tax, \$12.15; 1913, Canaday, Jeremiah, est of, farm valuation, \$2,800; highway tax, \$11.38; 1914, Canaday, Jeremiah, est. of, Lloyd Canaday, agt., farm valuation, \$2,800; exempt, \$2,800; highway tax, \$12.01. \$3,800; highway tax, \$12.01.

#### IN THE MATTER OF THE APPLICATION OF LLOYD L. CANADAY FOR THE REFUND OF TAXES.

To the Board of Supervisors of Rensselaer County:

Lloyd L. Canaday, being duly sworn, deposes and says he is the petitioner herein and is a son of Jeremiah Canaday an incompetent person.

That said Jeremiah Canaday is the owner of a farm in the town of Nassau, Rensselaer county, consisting of 185 acres of land. Said Canaday is a veteran of the Civil War and as such receives a pension from the government. That with the pension moneys received therefrom he purchased said farm and resided there for many years with his family. That within the past few years, about the year 1902, said Jeremiah Canaday, whose place of residence had been said farm, was declared an incompetent person and was committed to an institution at Binghamton.

That other than said institution said farm is the only place of residence of said Jeremiah Canaday. That deponent and other members of said incompetent's family now live on said farm.

In all other years since he owned said farm, except in 1912 and 1913, the assessors exempted said property from taxation, but in 1912 the assessors of Nassau assessed said property at \$3,000 and caused a tax of \$38.12, in addition to the highway tax, said tax being the regular state, town and county tax, to be levied against said property, and in 1913 the assessors assessed said property at \$2,800 and caused a tax of \$35 to be levied against said property.

To prevent a title being perfected on Sept. 30, in 1914, deponent paid the tax of \$38.12, besides interest, and on July 16th in the same year paid the tax of \$35.00 to prevent further expense to the Jeremiah Canaday estate.

That said tax and levy were erroneous and contrary to law because said premises were owned by a veteran of the war and purchased with pension money; that said veteran and his family occupy said premises, the said incompetent as much as he can under his said condition, but it is his only home.

Wherefore, petitioner prays that he be reimbursed for the money paid by him for said erroneous tax together with interest from the date of said tax, viz., \$38.12 and interest from September 30, 1914, amount \$40.70; \$35.00 and interest from July 16, 1914, \$37.89.

Dated December 7, 1915.

LLOYD L. CANADAY.

State of New York, County of Rensselaer, ss.:

Lloyd L. Canaday, being duly sworn, deposes and says that he is the petitioner above named: that he has read the annexed petition and knows the contents thereof, that the same is true to his knowledge, except as to the matters therein stated to be alleged on information and belief and that as to those matters he believes it to be true.

LLOYD L. CANADAY.

Sworn to before me this 7th day of December, 1915.

RALPH M. COOPER,

Notary Public.

Unanimous consent being given the above report of Committee on Erroneous taxes was adopted

Ayes: Messrs. Alderman, Baxter, Bennett, Cipperly, Finnen, Finnerty, Guerin, Hendy, Johnson, Kapp, Lazdon, Lewis, Mason, O'Leary, Ott, Quinlan, Riordan, Shannon, Sherman, Tobin, Vosburgh, Chairman Doty—22.

fund or highway fund to such appropriation, any unexpended balance standing to the credit of such fund, for the purpose of meeting any payment ordered by this Board or required by law, which amounts are hereby appropriated to such purpose.

And be it further resolved that there be levied and assessed upon the property of the County of Rensselaer, taxable therefor, for the general fund \$557,932.56, for the poor fund \$118,408.88, making a total amount of \$676,341.44, and for the highway fund \$47,470.31.

The petition of Miss Edna M. Ruth for an increase of salary, as appears on page 377, was taken up and granted by the following vote:

Ayes—Messrs Baxter, Dahl, Davis, Finnerty, Hendy, Kapp, Lazdon,

Leonard, O'Leary, Ott, Riordan, Satterlee, Sherwood, Tobin, Vosburgh, Warden, Whalen, Chairman Doty—18.

Noes—Bennett, Curtis. Guerin—3.

The following communication was received and ordered printed in the minutes:

Gentlemen:

Pursuant to the custom of this Board, I beg leave to submit to you a short statement of the financial and money affairs of the county as the same have been conducted during the past year.

The total amounts to be raised this year by the towns and county as appears in the tax budget, is the sum of \$1,054,093.36. This amount is exclusive of the special taxes such as certain fire taxes, dog taxes, cutting brush, water taxes, etc., which said special taxes are not included in the tax rate. This is an increase of about \$410,861.80 over the amount of last year.

When we look for the reasons for the increase and examine the unusual and extra items which have fallen upon the county during the past year and have gone into the present budget, we are justly entitled to feel considerable satisfaction at this result.

There has gone into the budget this year in the matter of unusual expenses, that is to say, expenses outside of and beyond the usual running expenses of the county government, the sum of \$148,926.20 for state tax; the sum of \$45,000.00 for the Child's Welfare Committee; the sum of \$12,000.00 for the new tuberculosis sanatorium site; the sum of \$19,120.00 for fire proofing county office including the architect's fees; the sum of \$3,680.10 to pay the referee's and stenographer's fees in the matter of the sheriff's charges before the governor; city and town balances, \$19,119.92; highway maintenance, \$6,850.00; annual audits, new, \$4,694.96; contingent fund, \$10,000.00; increase of expense on orphan asylums and maintenance of county institutions, \$25,000.00, making a total of unusual expenses of \$294,391.38, exclusive of several thousand dollars in smaller items which might be added thereto; and we feel that although the budget is somewhat larger than the 1914 budget, the county and the citizens of the county have received full value for all money spent, and increased benefits for the increased expenditures.
